FRIDAY, JUNE 8, 1866.

SPRINGER HARBAUGH, Esq., of this city, Government Director in the Union Pacific Railroad Company, recently made a report to the Secretary of the Interior, on the progress of the work, and embodying some facts of interest as connected with the development of the midland section of the Union. This report we give in another column. It is well-drawn, and will abundantly repay perusal.

INDIANA COUNTY.—On the 2d instant, at the Republican primary elections, Mr. Buffington had all the votes for President Judge; Mr. Taylor 1,000 majority over Dr. St. Clair for Congress; while Messrs. Kemmel and Gordon were highest for Assembly. Representatives are chosen in connection with Westmoreland. Indiana claims two, and concedes one to Westmoreland. Mr. Creps leads largely for Sheriff and Mr. Lowry for Prothonotary. Messrs. Allison and Campbell were highest for Associate Judges.

FAYETTE.—On Tuesday last the Republicans of this county nominated for Congress, Dr. Smith Fuller; for Senator, Gen. S. D. Oliphant; Representative, David Barnes; Associate Judges, Major Jno. Crea and Henry Overholt; Prothonotary, Capt. John Bierer; Register and Recorder, Lieut. Oliver Sprool.

One resolution expressed thanks to Congress for the passage of the Connellsville Railroad Bill. Here is another:

Resolved, That, in the opinion of this Convention, the representatives of the seceded States should be admitted into Congress, as soon as Congress shall deem it safe and advisable. That treason is criminal and odious, and that traitors should suffer the punishment which the law inflicts. That representation in Congress should be distributed among the States in proportion to their actual voting population.

THE Philadelphia *Inquirer* has this telegram from Washington;

The Johnson Club here have abandoned all hope of defeating General Geary in Pennsylvania and freely concede he will be elected by a large majority. They have no longer any hope of getting "Clymer" out of the field, who is personally very obnoxious to the President.

THE report of the Reconstruction Committee of the Senate, presented by Mr. Fessenden, is an elaborate and able argument in support of what is known as the Congressional policy; and it reviews the course of the President on reconstruction in scathing terms.

GEN. JOHN W. GEARY has been in this city for a day or two past. He leaves today, carrying with him the best wishes of a majority of nine thousand of the people of the county for his election to the Governorship.

THE Chambersburg *Repository* ought to know that the Convention in the Twenty-Second Congressional District for the nomination of a candidate for Congress will meet August 11th.

IT is now stated that the House Committee on Elections will report against Fuller and in favor of Dawson for the 21st district of Pennsylvania.

PEOPLE in Fayette county ask where Mr. Dawson was when the vote was taken in Congress on the Connellsville railroad bill.

LUZERNE township, Fayette county, Pa., has 14,173 sheep.

GENERAL NEWS.

—To-day Probst will be executed.

—Dr. David Mitchell, of Rochester, is dead.

—The grave of Ellsworth is sadly neglected.

—Gerritt Smith wants Davis tried by court martial.

—Several large pic-nics were held last Sunday in St. Louis.

—A bear weighing 300 pounds was killed in Jefferson county last week.

—Hon. Charles Wells, ex-Mayor of Boston, died on Sunday, aged eighty years.

—If falsehood paralyzed the tongue, what a death-like silence would prevade society.

—John Ross, of the Cherokee Nation, has been confined by a severe illness to his bed for the last twelve weeks.

—Extensive machine works in Titusville have ceased operations, their hands, all Fenians, having left for Canada.

—Our National Flags were not displayed in honor of the Fenian victory as the British flags were in honor of the rebel victories.

—The famous statue of Pompey, at whose feet Julius Cæsar died, is now in possession of the Marquis of Hartford whose father paid 225,000 francs for it.

—A dispatch from Cairo, Illinois, says: Capt. G. W. Gordon, at one time an officer on Kirby Smith's staff, was drowned in Pearl river, where he was bathing.

—At Moscow, the Countess Potocka, a Polish lady of rank, wealth and beauty, has been arrested for having predicted, some time ago, that the life of the Emperor would be attempted on the 16th of April. The lady had hardly been committed to prison when she went mad.

—We have advices from Brownsville, Texas, to the 28th of May. The Grand Jury of Cameron county had indicted ex-Major General F. S. Herron, United States army, for kidnapping and delivering to the Liberal General Cortinas a suspected Imperialist named Rejon, who was subsequently shot by Cortinas' order.

—A disease much resembling the rinderpest has broken out among the cattle at Danbury, Conn. Several cattle have suddenly sickened and died within thirty-six hours after they were attacked. Upon opening it was found that the brains and shoulders of the cattle were mortified, emitting a stench almost unable to be borne.

—We learn from the Memphis *Appeal* that a "difficulty occurred at the Gayoso House Friday evening, between General Fisk, of the Bureau, and a gentleman named Ridgely, which resulted in a resort to fisticuffs, from which the General was about coming out second best, when three negro soldiers interfered and turned the scale in his favor."

—L. P. Milligan, the Indiana Son of Liberty, who was pardoned by President Johnson, was arrested at Indianapolis on Tuesday, taken before the United States Circuit Court, and held in bonds of $5000 to answer, at the October Term, a charge of treason. He was visiting his Democratic friends in that city, and was in the special care of the Democratic candidate for Attorney General, John R. Coffroth.

—At New York a deputation representing a large number of colored men, who had served in the late war, called at the headquarters, and offered to enlist in the Fenian army, to fight for Irish liberty, and avenge the wrongs the blacks recently suffered in Jamaica from the British authorities. Colonel Roberts, who received the delegation, thanked them in behalf of the Irish people for their kind offer, and said he believed he should soon have need of their services. The Colonel also remarked that he considered black men were almost too good to fight against English tyrants. The deputation then withdrew, and were loudly cheered when they left the building.

An Error Corrected.
Most practitioners and medicine makers, in preparing pulmonary medicines, use ingredients which must be prescribed "not oftener than three or four times per day;" the proper treatment in such cases is to employ a medicine that is safe to use every fifteen minutes—the directions for cough medicines, should be "little and often." It is the throat, not the stomach, that requires treatment—this is the secret of the success of Coe's Cough Balsam. Take it "little and often." In a very short time it has become immensely popular.

Sole agent for Pittsburgh, wholesale and retail, is JOSEPH FLEMING, Druggist, No. 84 Market street.

Words of Vital Interest.
Will the thousands who read columns of frivolous verbiage every day devote *five minutes* to the perusal of a few facts which concern them nearly? Our text is *Health*, and we will put our commentary into a nutshell. *Weakness* is indirectly the cause of all sickness; for if nature be strong enough to resist the morbid influences which produce illness, of course they are powerless. Seek strength, therefore, invigorate and regulate the system. When the quicksilver ranges from 80 to 96 degrees in the shade, the most athletic are enfeebled and the weak are prostrated. It is at such a time that such an invigorator as HOSTETTER'S STOMACH BITTERS is urgently needed. What are the effects of this rare Vegetable Tonic? Would that all who have known its benefits could condense their experience into this paragraph. They would tell the healthy, to protect their health they must use this great safeguard against the debilitating influences. They would exhort the weak to discard all unmedicated and impure stimulants and cling to this wholesome and unfailing tonic and alterative as the shipwrecked mariner would cling to a raft in a stormy sea. They would, of dyspeptic pangs relieved, of appetite restored, of shattered nerves restrung, of headaches cured, of disordered functions regulated, of hypochondria dissipated, of miasmatic diseased baffled, of fever and ague cured, of liver complaints arrested, of heat, privation and toil defied, of hope reanimated, and cheerfulness restored. Such are the effects of HOSTETTER'S BITTERS

FROM MEMPHIS.

Congressional Committee Close their Investigation—Details of the Riots Cover 2000 Pages.

MEMPHIS, June 7.—The Congressional Committee closed their labors to-day, and started for Washington, after a session of fifteen working days, in which they have examined one hundred and seventy witnesses and taken two thousand pages of testimony, covering the details of the riots, its causes and its results. Mr. Washburne had gone by way of St. Louis and taken the stenographer with him for the purpose of analyzing the testimony on the route. The others went direct by the Chattanooga route. It is understood the full testimony shows the riot to have been much greater in its proportions than any statement yet published would indicate.

General Santa Anna and Suite in New York—Southern Treasury Officers' Resignations to be Accepted.

NEW YORK, June 7.—General Santa Anna and his suite arrived in this city yesterday and took up their residence in the mansion prepared for them in West Twenty-fifth street, near Fifth avenue.

A Washington special says: "In consideration of the fact that no legal payment can be made to any Southern officer of the Treasury Department who has not subscribed to the test oath, the Secretary of the Treasury has notified all such that their resignations will be accepted. He has also made a request that Congress provide for the payment of those who have been performing the duties of the Department for the time during which they have been so engaged."

THE FENIANS.

Arrest of President Roberts.

HE REFUSES TO ACCEPT BAIL.

Ten Thousand Troops at Montreal.

GENERAL SWEENY SUDDENLY LEAVES ST. ALBANS.

Arrest of Fenians at St. Louis.

NEW YORK, June 7.—The Fenian President Wm. R. Roberts, was to-day brought before United States Commissioner Betts under a warrant issued on Wednesday for his arrest for violation of the neutrality laws. He was arrested at eleven o'clock at his headquarters by L. Horton, one of the Deputy Marshals, and though surrounded by an excited crowd of adherents, came on the simple request of the officer, without opposition. When his presence in the building became known, the most intense excitement was at once manifested among the few who were aware of the fact, and the little room in which Mr. Commissioner Betts ordinarily hears cases was at once crowded to its fullest capacity. The Acting District Attorney stated the contents of the warrant and that the Government thought it right, as Mr. Roberts appeared without counsel and seemed to desire a trial, to accept two bonds of $10,000, one ordinary bail and the other to keep the peace. He thought the case was one in which the latter bonds might be fairly asked, as Mr. Roberts' action tended to disturb the peace at least between nations.

Mr. Betts—I do not see that I have power to ask bail to keep the peace in such a case.

Mr. Roberts—I am anxious for a speedy trial in this matter, but cannot give bonds to keep the peace.

Mr. Betts—In my present view of the law, I do not see that I can ask it.

Mr. Roberts—I should like to know if I give bail for this charge if I am liable to be re-arrested.

Mr. Betts—Certainly you are.

Mr. Roberts—Do I understand that to mean that to be re-arrested, I must make war against some other nation than England.

Mr. Betts—"No; any act done against England subsequent to this act, or as this is a continuing offense, any continuance of acts on which complaint was made would be sufficient foundation for a new warrant."

Mr. Roberts—"Then I decline so give bail. It would be giving the Marshal trouble to no purpose. I have bail here, and my reason for declining before was that I understood the rule to be as your Honor has laid it down. I certainly would not give bonds to keep the peace to restrain me from repetition or continuance of any act which I feel to be my duty as an Irishman. I have persons here who would be my bail."

Mr. Cuff rather excitedly offered to go bail for Mr. Roberts in forty thousand dollars.

Mr. Allen—"I do not understand the Court to decide definitely on the question of bonds to keep the peace. I am aware Mr. Roberts has bail at hand, and I suggest that the matter be left open until Monday in case Mr. Roberts should change his mind. As Mr. Roberts wishes a speedy trial I ask that you fix Monday next for a preliminary examination."

The Commissioner then remanded Mr. Roberts into the custody of the Marshal, appointing Monday next, at eleven A. M., for a preliminary examination. Mr. Roberts is detained at the Astor House.

The warrant alleges he did begin and set on foot a military expedition, and has provided and is now providing means for a military expedition or enterprise to the territory of Upper Canada or Lower Canada, and other provinces or territories adjoining thereto; all of which said territories are a part of the territory and under the Government and jurisdiction of the Kingdom of Great Britain, a foreign state or power with which the United States are now at peace.

A dispatch from Cornwall, C. W., states that ten thousand men had been concentrated at Montreal for the defense of the city.

It is also reported that Colonel Kerrigan was arrested.

The Fenians are very despondent here today. The leaders say they can do little more for their army invading Canada.

Colonel Roberts has refused to accept bail or give his parole. He is under guard at the Astor House.

BOSTON, June 7.—A St. Albans special to the *Herald* reports the Fenians making for St. Anbridge, Canada East, seven miles from Franklin, Vermont. It is said that they have come into possession of a large quantity of arms, ammunition and provisions, provided by agents who have been secretly collecting them from Canadian sympathizers. Rumor has it further that horses have been found in sufficient numbers to mount all the cavalry divisions, and that sabres were also plenty.

General Spear and staff have clandestinely left town.

There was a heavy seizure of arms by the United States forces, between Ogdensburg and Potsdam, last night.

United States Commissioner Foot, of Burlington, has been summoned to this place, which indicates that General Sweeny will have his case speedily investigated. It is believed he will be discharged on bail.

BOSTON, June 7.—A special dispatch from St. Albans states that orders were received last night to arrest Gen. Spear, as well as General Sweeny, but the former suddenly left his quarters on horse back shortly before midnight. The opinion was expressed that Gen. Sweeny was desirous of being taken, as he had plenty of time to get away. A heavy storm prevailed during last night and this morning.

Thirty Fenians left St. Albans last night for Boston, refusing to pay their fare, and threatening to burn the town if put off the cars. The advance of the Fenian army was at East Franklin last night, sixteen miles north of St. Albans.

ST. LOUIS, June 7.—Daniel O'Madigan, Wm. Henry, M. A. Morrill, J. P. Cowan, Frank Murphy, T. J. Daily and M. W. Hogan, prominent Fenians of this city, were arrested to-day by the United States Marshal and brought before the United States District Court, Judge Treat presiding. Dr. Thomas O'Reilly was also arrested, but not belonging to the Fenian Brotherhood, was released on bail. District Attorney Grover called up the case of M. W. Hogan as a test case, which was proceeded with, but nothing of a criminal character was elicited. The Court then adjourned till to-morrow. Hogan, Henry, Cowan and Morrill were released on a thousand dollars bail, but O'Madigan and Daily refused to enter into bonds, and were taken in charge by the Marshal. The trial will be continued to-morrow.

NORWALK, CT., June 7.—There has been a great Fenian demonstration here to-day. Major Dermont, of New York, and Lieut. John R. Roberts raised eighty-three recruits for the Fenian army, all of whom are very enthusiastic and ready to go to the front as soon as transportation is furnished them. They paraded the streets with the Green and American flags flying, but their proceedings were suddenly brought to a close by the Marshal here, who threatened to arrest the leaders under the President's Proclamation.

WATERTOWN, N. Y., June 7.—Two car loads of Fenians on their way north were put off the afternoon train at this place by the officer in command at this post, acting under orders from Gen. Meade. A party were also put off the morning train at Antwerp. No more will be allowed to go north. It is officially reported from Malone that the northern campaign has fizzled. The principle officers have been arrested, and the men are leaving for their homes.

NEW YORK, June 7.—A special to the Boston *Herald* states that a large force of Fenians is at Pigeon Hill, near Hygate, fortifying and waiting for subsistence. Gen. Spear was present, and it is rumored that he had a slight skirmish with the Canadian militia this morning.

FROM RICHMOND.

United States Circuit Court—The Grand Jury Admonished to Keep Secret their Proceedings—Name of Parties Indicted not to be made Public.

RICHMOND, June 7.—In the United States Circuit Court, to-day, the Grand Jury presented several true bills. Judge Underwood admonished the jury against any revelation of their proceedings, and that the names of the parties indicted could not be made public until their arrest. The jury was then discharged until the second Tuesday of October next, and the court adjourned until that time. It is reported that several prominent officials of the late Confederate Government were indicted for treason. Two of the bills were against parties charged with passing counterfeit fractional currency.

Wild Excitement in New York—The U. S. Authorities Denounced and Charged with Playing False to the Irish.

NEW YORK, June 7.—The arrest of Sweeny and Roberts caused the wildest excitement among the Fenians here to-day. An informal meeting was held in City Hall Park and several speakers denounced the authorities at Washington, charging that they had played the Irish false, and they would not fight again against the rebels. The Fenian ardor is a good deal dampened, and there were few, if any, enlistments to-day.

A large and enthusiastic Fenian meeting was held at Cooper Institute to-night. Resolutions were passed denouncing President Johnson, and declaring that the Irish people will not support him hereafter. Col. Steiger declared that the French Canadians hated the English as much as the Irish, and only waited an opportunity to rise. He stated that money was wanted greatly, and four thousand dollars were raised. Colonel Kerrigan, it was said, had five thousand men who only waited for transportation. Objections were made to persons in the United States uniform acting as British detectives.

General Burnside.

PROVIDENCE, R. I., June 7.—General Burnside has accepted the Presidency of the Rhode Island Locomotive Works.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, June 7.

SENATE.

Mr. Morgan presented the petition of Union officers engaged in the cultivation of cotton against the proposed tax on cloth, which was referred to the Finance Committee.

At one o'clock the Reconstruction Resolution was taken up.

Mr. Davis, of Kentucky, took the floor in opposition to the measure.

Mr. Ramsey introduced a bill for the relief of the United States Express Company, which was referred to the Committee on Finance. It provides for the issue of duplicate bonds lost by fire January 30, 1866, on the New York and Erie Railroad, while in possession of said Express Company. The seven-thirty bonds were of the denomination of $500, $1,000 and $50, dated June 15, 1865; also similar notes of July 15, 1865, and August 15, 1864. A few sixes of 1861, are included. The whole issue amounts to five thousand dollars.

Mr. Sherman, from the Special Committee on Incorporating a National Telegraph Company, reported a bill to aid in the construction of telegraph lines and to secure to the Government the use of the same for postal, military, and other purposes. It authorizes the National Telegraph Company, which was organized April 16, 1866, under the laws of New York, to construct and maintain lines through the United States along any military or post road, provided there shall be no obstruction to ordinary travel by land or navigation of rivers, with the right to use stone or timber from the public lands in the construction of such lines, and with a grant of public land not exceeding one-quarter section for each telegraph station. The second section gives priority to the transmission of Government dispatches. The third section prohibits the transferring of these rights and privileges to another company without the consent of Congress, provided that the Government may at any time after five years purchase the property of this Company, at a price set by five competent, disinterested persons, selected, two by the Company, two by the Postmaster General, and one by the other four. The last section reserves the right of Congress to grant similar privileges to any other company.

Mr. Harris, from the Committee on Private Land Claims, reported a bill to authorize documentary evidence of titles to be furnished to the owners of certain lands in the city of St. Louis, which was passed.

Mr. Henderson called up a bill to grant lands in aid of the construction of the Kansas and Neosho Valley Railroad and its extension to the Red river.

Mr. Hendricks spoke in opposition to the bill until one o'clock, when, the morning hour having expired, the Reconstruction resolution was taken up.

The pending question was on the following amendment, submitted in behalf of the Committee of Fifteen by Mr. Williams. Strike out the second section and insert in lieu thereof the following: "Section 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in such State, excluding Indians not taxed; but whenever the right to vote at any election held under the Constitution and laws of the United States, or of any is State, denied to any portion of the male inhabitants of such State, being citizens of the United States, twenty-one years of age, or in any way abridged, except for participation in the rebellion or other crime, the basis of representation shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State."

The section proposed to be stricken out is as follows: "Section 2. The several States which may be included within the Union according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed, but whenever in any State the elective franchise shall be denied to any portion of its male inhabitants, being citizens of the United States not less than twenty-one years of age, or in any way abridged, except for participation in the rebellion or other crime, the basis of representation in such State shall be reduced in the proportion to which the number of such male citizens shall be to the whole number of citizens not less than twenty-one years of age in such State."

Mr. Davis took the floor in opposition to the joint resolution. He commenced by speaking of the backwardness of the public business, which he attributed to a desire on the part of the majority to elevate and aggrandize what was called "the freedman." He then adverted to what he termed the difference between the President and the majority. He said the President was right. Mr. Johnson's policy was but a continuation of that of his predecessor, and the majority in Congress were now denouncing him because he refused to be a supple tool in their hands.

Mr. Davis spoke from one o'clock to 4:50 p. m.

At the conclusion of his speech, pending the consideration of Mr. Williams' amendment, the Senate, at 5:10 o'clock adjourned.

HOUSE.

Mr. Ancona offered a joint resolution fixing upon the 28th instant as the day for adjournment, but it was not in order, other business pending.

Mr. Raymond moved the postponement of the joint resolution in reference to Indian treaties, which not being agreed to, he moved the previous question on its passage. The House refused to second the previous question, when Mr. Burleigh, of Dacotah, moved to postpone the joint resolution till Monday next, when he promised to show that the money appropriated by it, and most of which was actually spent, was being squandered by the Commissioner of Indian Affairs, in violation of law. The motion was agreed to.

Mr. Hubbard introduced a bill securing homesteads to actual settlers, and encouraging the planting of forest trees, which was referred. It gives a quarter section of land, destitute of timber, to any person who will cultivate not less than ten acres in forest trees.

On motion of Mr. Windom the Secretary was requested to report the expenses for suppressing Indian hostilities in 1864 and 1865. He also introduced a bill granting the State of Iowa lands to aid in constructing the St. Louis and Cedar Rapids Railroad, which was referred.

The League Island Naval Depot bill was then taken up, Mr. Myers speaking in favor of it.

Mr. Thayer followed on the same side.

Mr. Spaulding stated that he had been a member of the Committee on Naval Affairs of the last Congress, and had had occasion to view the locality well known as League Island. It occurred to him that there was such a thing as having a present of too expensive a character to the donee. If the project were carried into execution, it would necessitate an enormous outlay of public money. He feared that League Island was rather too secure from the approach of a foreign foe. For a portion of the year League Island was, on account of ice, inaccessible from the ocean.

Mr. Kelly interrupted Mr. Spaulding to say that the record showed that in forty years the city of Philadelphia had never been ice-locked. There had never been a day when vessels could not make their way to and from the ocean.

Mr. Spaulding closed by declaring himself in favor of the substitute offered by Mr. Brandage yesterday, authorizing a commission of scientific and competent men to examine all the sites offered.

Mr. Randall, of Pennsylvania, made a speech in favor of the bill. He represented that the site of the present navy yard in Philadelphia would bring to the Government a million or a million and a half of dollars. He had been authorized this morning by a competent man to state that he would cheerfully take a contract to place League Island in a thorough condition for the object proposed, in consideration for the land now covered by the Philadelphia navy yard, and he thought he would make money by the operation.

Mr. Raymond said it was perfectly clear that it was for the interest of Congress and of the country to have the best site for a navy yard that could be found in the United States, therefore he could not see any valid objection to the adoption of the substitute. If League Island were the best site it was reasonably certain it would be recommended by the Commissioner whose substitute contemplated, and if it were not best, then nobody should wish it to be taken. He did not care to go beyond that single consideration. If he looked farther he found that some of the board of naval officers and of the Committee of Naval Affairs of the House had examined League Island, and had reported against it.

Mr. Le Blond interrupted Mr. Raymond to say that he inferred from what he said that he was in favor of the substitute, but he was somewhat curious to know how he was going to vote on the question.

Mr. Raymond replied that he did not know which to desire most, the extraordinary skill and ingenuity with which the gentleman, Mr. Le Blond, drew his inference or his coolness in putting such a question.

Mr. Le Blond put it upon the history of the gentleman's course this session.

Mr. Raymond remarked that he had stated that he intended to vote for a substitute, and the gentleman from Ohio, (Mr. Le Blond) inferred from that with a degree of a Cumen that it was characteristic of him, that he "Raymond" was not going to vote for it.

Mr. Le Blond—"That was a natural conclusion from the past history of the gentleman from New York." (Laughter.)

Mr. Raymond — "The natural conclusion from what past history?"

Mr. Le Blond—I will say for the information of the gentleman from New York (Raymond), that on two other occasions he has spoken for propositions and then voted against them. The gentleman made a speech in favor of striking out the third section of the Constitutional Amendment. We were all on this side proud of that speech, and were of opinion that the gentleman was going to vote with us and that we would defeat the measure, but when the vote came, we found the gentleman (Raymond) voting with Mr. Stevens in support of the measure which he had spoken so eloquently against. (Laughter.) On one or two former occasions, I believe, the gentleman stands on record of speaking one way and voting a contrary way. (Laughter.) That being the case, we naturally infer, on this side, that whenever the gentleman from New York makes a speech in favor of a proposition he will vote against it. (Loud laughter.)

Mr. Raymond—The inference which the gentleman from Ohio (Le Blond,) assures me that he and that side of the House draw, is creditable to their candor as well as to their intelligence. He may learn from this instance, as well as from the others to which as has alluded, tha the inference which he and his associates have taken the liberty of drawing concerning my action, has no foundation whatever, except in their own imaginations, or perhaps in their own hopes.

The bill was then passed: Yeas, 71; nays, 46. It authorizes the Secretary of the Navy to receive and accept from the city authorities of the city of Philadelphia the title to League Island in Delaware river, and the adjacent marsh land, including the whole of the creek known as Back Channel, from the Schylkill to Delaware river, and all riparian rights and privileges of said League Island, adjacent marsh and Back Channel, together with so much of the opposite shore of Back Channel from League Island shore, as shall, in the opinion of the Secretary of the Navy, be ample to enable the Government to have the sole and exclusive use of said Back Channel and both shores thereof, said Island and appurtenances to be held for naval purposes by the Government of the United States; provided League Island, marsh adjacent, and Back Channel, with its shores as aforesaid, shall not be received or accepted until the title to the whole of the same, as herein described, is complete and indefeasible, nor unless acceptance thereof shall be recommended by a board of officers to be appointed by the President; and, provided further, that if League Island be selected the navy yard at Philadelphia shall be dispensed with and disposed of by the United States as soon as the public convenience will admit.

Mr. Garfield presented a petition of citizens of Thompson, Geauga county, Ohio, asking for increased protection for American wool, which was referred to the Committee on Ways and Means.

Mr. Raymond presented a petition of W. W. Richmond, praying for payment for services as Secretary of Legation in Brussels, and Commercial Agent in St. Domingo, which was referred to the Committee on Foreign Affairs.

Mr. Ancona introduced his concurrent resolution providing for an adjournment of Congress on the 28th of June.

Mr. Morrill called for the yeas and nays, stating that there was important business to be transacted which could not be transacted within that time.

The House refused to order the yeas and nays, and passed the concurrent resolution by vote, 69 to 39.

Mr. Grinnell moved to reconsider the vote.

Mr. Eldridge moved to lay the motion to reconsider on the table. The yeas and nays were taken on the motion and resulted in yeas 34, nays 60. So the motion was not laid on the table.

The vote was then taken on the reconsideration. It was taken by a count, when there was ayes 49, nays 39.

No quorum voting, the House, then, at five o'clock, and without deciding the question, which comes up as unfinished business to-morrow, adjourned.

FROM NEW ORLEANS.

Departure of the Fenians—The Floods Receding—Relief to the Submerged Districts—Guerrillas on the Mexican Border—Bagdad Submerged by a Storm.

NEW ORLEANS, June 7.—One hundred and fifty Fenians left for Canada this morning with Mississippi rifles.

The waters are everywhere receding. There are no fears of further floods this year, but the people in the immense submerged country are in terrible distress. Relief is going out of the city daily.

The Fourth Wisconsin Cavalry arrived from Brazos.

Colonel Grigg's guerrillas continue on the Mexican border. Dr. Morse was lassoed and murdered. Cortinas organized a new command of three hundred guerrillas—all the troops are demoralized.

The grand Matamoras Theatre was dedicated. It cost one hundred thousand dollars. General Mejia and army were present.

Bagdad was submerged by the storm on the Gulf.

Excitement on Staten Island—Vigilance Committee to Prevent the Erection of Buildings for Hospital Patients—The Races at Patterson.

NEW YORK, June 7.—The Staten Islanders have appointed a Vigilance Committee to prevent the erection of buildings for the cholera patients at Seguin's Point. Much excitement and ill-feeling on the subject exists there, and it is believed the natives will cause a disturbance as soon as they dare against the authorities.

The Races at Patterson New Jersey, to-day, were largely attended. The first race, Hurdle, two miles, for four hundred dollars, was won by Seiggaz, beating General Williams, Rosco, and Nannie Craddock. Time 4:13¾.

The second race, sweepstakes, two-mile dash for four hundred dollars, was won by King Lear beating; time, 4:06.

The third race, three-mile heats, for one thousand dollars, was won by Kentucky beating Richmond. Time, 5:58¾.

The fourth race, sweepstakes, half a mile dash for two year olds, for three hundred dollars, was won by Maid of Honor.

The fifth race, one and a quarter mile dash, for three hundred dollars, was won by Norwich.

John Frazer, 303 Broome Street, died of cholera last Monday.

Robert D. Holmes, at the annual Convention of Masons of this State, was elected to-day Grand Master, and Stephen H. Johnson, Deputy Grand Master.

Internal Revenue Decision—Pension Bill Signed.

WASHINGTON, June 7.—The Commissioner of Internal Revenue has decided that gains and losses incurred in the purchase and sale of stocks are regarded as gains and losses in business without reference to the time during which stocks are held at interest and dividends derived from them. Stocks are regarded as income derived from fixed investments, without reference to the time during which such stocks are held, but where gains derived from the sales of stocks involve interest received or accrued, such gains may be regarded as derived from business alone. Salaries—except where specially provided for by statutes, are regarded as income from business. The value of property used in business, less the amount of insurance, may be deducted when lost from gains and profits of business. The fact that a person returns gain or claims loss upon the purchase and sale of stock does not necessarily imply that he does business which requires or has required the license of a broker. The liability to be taxed for such license should be determined upon its own merits, and is an independent question.

E. A. ROLLINS, Commissioner

The President has approved the bill supplementary to several acts, relating to pensioners, which extends pensions to a larger class of persons than heretofore, and in extreme cases to increase them.

Fire at Chicago—Steam Fire Engine Demolished—Loss of Life.

CHICAGO, June 7.—A fire occurred this morning in Metropolitan block, corner of Lasalle and Randolph streets. The building was damaged to the extent of $25,000, fully insured. The Academy of Science suffers a loss of about $11,000, insured.

The fire engine Economy, while proceeding to the fire, was run into by a locomotive engine and completely disabled. One fireman was killed and three men seriously injured.

From New Brunswick—Success of the Confederation Scheme.

ST. JOHNS, (N. B.,) June 7.—Thirty members of the House of Assembly have been elected, of whom twenty-six are in favor of confederation and will support the existing Government. This insures the success of the Union scheme in New Brunswick. All the Quebec delegates who were defeated last year, have been elected.

Colored Men Offering their Services to the Fenians.

PHILADELPHIA, June 7.—A deputation of colored men waited on the executive committee of the Fenian brotherhood this morning, and offered the services of one hundred able-bodied colored men, well drilled soldiers, all of whom served in the late war, to march to the Canada border to fight for Irish liberty and independence.

Telegraph Case.

SAN FRANCISCO, June 4.—In the suit of the California State Telegraph Company against the New York Pacific Telegraph Company, the latter has been restrained and prohibited from telegraphing between the cities in Nevada and California. The injunction is permanent and cannot be removed by any authority whatever.

Twenty-three Buildings Burned.

POUGHKEEPSIE, N. Y., June 7.—Twenty-three buildings were destroyed by a fire at Port Ewen, opposite Rhinebeck, this morning. Among the sufferers are Edward Honnotty, James Thompson, Henry F. Stevens, J. Hughes, Edward Casin and John O'Reilly. We are unable to ascertain the exact amount of loss or insurance.

Hot Weather.

LOUISVILLE, June 7.—Mercury eighty degrees.

NASHVILLE, June 7.—This has been the hottest day of the season.

River at Louisville.

LOUISVILLE, June 7.—The river is rising by a sudden dash from Kentucky, with five feet eight inches in the canal. The weather is clear and warm.

CITY AND NEIGHBORHOOD.

(Additional on Third Page.)

The Gazette.—Persons leaving the city during the summer, can have the GAZETTE mailed to them by leaving their address at our counting room.

A Skilful Undertaker.

The card of Alexander Aiken, undertaker, No. 164 Fourth street, near Grant, appears in another column. Mr. Aiken is one of the few undertakers of this city who understand how to perform, in a fitting and dignified manner, the last sad rites of burial. As an undertaker he is deservedly popular where his services have been called into requisition. Having had long and liberal experience in his somewhat sorrowful calling, he is justly entitled to rank among the first class undertakers of the country. He has on hand in his coffin rooms a large stock of neat and beautiful coffins and burial cases, which range in value from a few dollars up to hundreds. To all matters pertaining to a burial, he gives his personal attention, and we know of none more worthy of being called in to attend at the last sad rites of the departed than Mr. Alexander.

Court of Common Pleas.—Hon. E. H. Stowe presiding.

THURSDAY, June 7.—At the opening of Court the jury in the case of Clark vs. Buchanan returned a verdict in favor of defendant for $27.52.

The next case on the calendar was that of Bernard Gray vs O'Hara & Maguire. Counsel for plaintiff moved to amend declaration, and proceedings were continued.

In the case of James Lindsay's executors vs Thomas Sinclair, a like application was made.

South & Ross, 63 Market street, are constantly in receipt of Boots, Shoes, Balmorals, Slippers, Oxfords, Congress Gaiters of all the latest styles, which they are selling at the most moderate prices. Persons desiring anything in this line are respectfully invited to call before purchasing elsewhere and examine stock and prices.

Assault and Battery.—Elizabeth Campbell appeared before Mayor M'Carthy last night and preferred a charge of assault and battery against Luke Loring. A warrant was issued for Luke's arrest.

Criminal Court Proceedings.

Judges Sterrett and Brown presiding.

THURSDAY, June 7.—The following cases were disposed of:

Jeremiah Walker plead guilty to an indictment for selling liquor without license, and was sentenced to pay a fine of twenty-five dollars and costs.

Thomas Kimberlin and John Kirkenroher pleaded guilty to having committed an assault and battery upon Thomas Robinson, and were sentenced to pay a fine of five dollars and the costs.

William Parker, charged with the larceny of silver spoons and forks from Fricker's eating saloon, was acquitted and discharged.

Mark Deary, convicted at last term of receiving stolen goods, was sentenced to sixty days imprisonment in the county jail.

John Showalter and David Parmer were convicted upon an indictment for stealing chickens from Frederick Albrecht, in Birmingham. Sentence defered. The same parties were convicted on Wednesday of the larceny of a "billy goat."

William S. Herman alias Rufus Conner, was sentenced to ten years imprisonment in the penitentiary—three years each on three several indictments for stealing goods, and one year for an attempted escape from the county prison.

James Charlton was arraigned upon an indictment for bigamy. From the evidence it appeared that on the 1st of October of last year the defendant married Mrs. Isabella O'Neill, a widow, at Ottowa, Illinois, that a few months since he came to Allegheny county, and married, on the 29th of April, Miss Eliza Black, the woman he married in Illinois being at the time in full life. The jury having found a verdict of guilty, the defendant was sentenced to undergo an imprisonment of one year and four months in the Western Penitentiary.

John Scahill was placed on trial for an alleged aggravated assault and battery on Charles Williams, on the Monongahela wharf, on the 28th of April last. The prosecutor, (Williams,) who resides now in Mercer county, brought a boat load of pig metal to the city, and mooring his craft in the vicinity of the Point, engaged a gang of hands to unload his cargo, for thirteen dollars, whiskey included. Having done this, he was encountered by the defendant, to whose inquiry, as to what compensation he was paying to his hands, Williams replied "it is none of your business."

Shortly subsequent, and whilst Williams was seated resting himself on the wharf, the defendant approached, and after striking Williams on the head with a boulder, ran away, Williams pursuing, after he had sufficiently recovered from the blow. The cause of this demonstration on the part of Scahill did not appear, from the evidence, and the case having been submitted by Mr. Mackrell for the prosecution, and Mr. Coyle for the defence, the jury found the defendant guilty of assault and battery, the injury inflicted not being of an aggravated nature. Sentence deferred.

John G. Taylor, of West Elizabeth, was placed on trial for selling liquor to minors and on Sunday, S. B. Haney, constable, prosecutor. It appeared that the defendant, who is a tavern-keeper, sold liquor to minors, and made an arrangement with his boarders by which they could have their three "drinks" on Sunday from a jug, the bar being, ostensibly, closed. There was some evidence that the liquor was sold by the bar-keeper to minors, without the knowledge and consent of the defendant. The indictments were found at the March term, but the case put over for reasons satisfactory to the Court. The jury found a verdict of guilty. Sentence deferred.

Ephraim Balliott, of Lawrenceville, was indicted for selling liquor without license and on Sunday, on oath of Gottfried Roth. The defendant did not keep a saloon or tavern, but sold ale to his neighbors and friends on the Sabbath day. The jury found a verdict of guilty and recommended the defendant to the mercy of the Court. For selling on Sunday he was fined $30 and ordered to undergo ten days' imprisonment, and for selling liquor without license (it being the second offence) he was required to pay a fine of $75 and to undergo fifteen days' imprisonment.

Frederick Eele was arraigned upon an indictment for assault and battery with intent to commit a rape upon Mrs. Teresa Hassler, at the house of John Hammerling, in Duquesne borough, on the 19th ult. The prosecutrix testified that defendant came into her room about the hour of twelve at night and made an assault and battery upon her with heinous intent. He clasped her throat to prevent her making outcry, but she managed to make a noise against the wall adjoining her bed, which caused her assailant to desist from his purpose. On trial.

The Fenians.

The Fenians had a day of excitement yesterday. They could not satisfactorily explain or interpret the meaning of the President's proclamation, as they had confidently relied upon the chief "Head Centre" of America being friendly to their cause. Some interpreted neutrality according to the English illustration during the late rebellion, but others seemed to realize that the Government was in earnest to suppress the movement. The bonds of the Irish Republic, notwithstanding adverse circumstances, met with good sale at the Grant street agency. Nearly three thousand dollars worth were disposed of to persons friendly to the cause. Recruiting goes on briskly, and if circumstances do not intervene to render necessary the shipment of more troops, a battalion of two hundred and fifty men will be forwarded on Sunday next. This number will complete the quota of the district, although volunteers will be accepted till orders to the contrary are received from Headquarters. Singular to state thus far the Irish bonds have found more purchasers among American citizens than the Celtic element. Yesterday a number of brave officers of the Union army called at the Fenian Headquarters and subscribed one thousand dollars to the cause. One of them, who had lost an arm in the service, donated a minie bullet of English manufacture, and requested that it be returned to the original owners with the compliments of the American soldier it had disabled for life.

Beautiful Specimens of Penmanship.

We called in yesterday at the college rooms of Professor Newton Shaffer, No. 4 St. Clair street, and found nearly an hundred scholars in attendance. Professor Shaffer exhibited to us his style of penmanship, which we unhesitatingly pronounce faultless. He teaches just such a system as should be adopted in every counting room in the city. His letters are dashed with a single, rapid stroke, and when finished present a beautiful and chaste appearance. The great fault with teachers of penmanship is that they confine the pupil to laborious hand movements, and teach him to shade and fill his letters after formed. Such systems never beget proficient pensmen. Professor Shaffer teaches a free bold swing of the arm, and a careful student cannot fail becoming an expert with the pen under his tuition. The specimens exhibited at his rooms are master works of the pen and cannot be surpassed in beauty and excellence. He teaches card writing, and at the present time has a number of proficient scholars studying this branch of art. Parents desirous of making good business men of their sons, and accomplished women of their daughters, would consult their interests by calling at Professor Shaffer's College. He teaches book keeping in all its branches, and has already graduated many of our best accountants.

Distressing Accident—Boy Killed.

George, aged seven years, son of Mrs. Mary Magor, a widow lady, residing in Shaler township, met with his death under most distressing circumstances on Wednesday evening. He had been with his mother on a visit to the country, and in returning got upon a loaded car on the coal railway leading to Spang & Co's. rolling mill, near Sharpsburg. After going some distance the boy said he was tired riding, and before his mother could prevent him he leaped from the car. Falling upon the track, the front wheel of the car passed over his breast, and the mother screaming, the driver, George Wood, stopped the train as soon as possible. Death resulted almost instantly, as the chest in the region of the heart was literally crushed. Coroner Clawson yesterday held an inquest on the body, and a verdict of accidental death was rendered.

An Allegheny Feed Store

A want has long been felt in our own sister city of Allegheny for a first class feed and produce store. Hitherto most of the trade in that line has been drawn to this side of the water, but we are pleased to state that a first class house of the kind has at length been established at No. 155 Ohio street. Messrs. S. C. McMaster & Co., are the proprietors. They have on hand a very large stock of grain, oats bran, oil, meal, and every thing usually kept in similar houses. They always keep the finest brands of flour in store, which they deliver to purchasers at wholesale rates. Produce of all kinds is also kept in store, and housekeepers would consult their pecuniary interests by dealing with this firm. The proprietors are obliging, careful and fair-dealing gentlemen, and we cheerfully commend them to the public. Their card appears elsewhere.

Tax on Gold Watches, &c.—The amount of tax collected on gold watches, carriages, pianos, silver plate and billiard tables, kept for private use, for the year 1858, in the 22d District, as obtained from the Assessor's books, is as follows:

Gold Watches	$2,588 00
Carriages	1,794 00
Pianos	3,050 00
Silver Plate	762 46
Billiard Tables	40 00
Total	$8,234 46

The Cat Out.—During the trial in the Criminal Court, yesterday, of William Parker, for the larceny of spoons from Fricker's eating saloon, now kept by William Holtzheimer, it came out that Parker and those with him at the time of the alleged larceny, all minors, obtained liquor at the saloon. In view of this fact the Court required Mr. Holtzheimer to find bail to answer the charge of selling to minors, and also held Parker (who was acquitted of larceny) and his comrades in recognizance to appear as witnesses.

Disgraceful Riot in Allegheny.—Three men named William Oakley, James Adams, and Elder Gartman got into a quarrel with some Germans, whose names we could not learn, on Ohio street, in Allegheny, last night about eight o'clock, and before the police arrived the windows of the beer saloon of Gustave Bierman were badly broken and the furniture mashed. The parties named were arrested and lodged in the tombs. They will have a hearing to-day.

Arrested.—Lizzie Summers, Nelly Sanders and Ida Raymond were arrested last night, about one o'clock, on Wylie street, and taken to the tombs. They were charged with the venial offense of talking to their gallants on the sidewalk at an unseasonable hour.

The Knife at Work—Desperate Row in a Saloon—Two Men Stabbed, One Seriously.

Last night about twelve o'clock a desperate fight took place in the tavern of Felix Lafferty, on Smithfield street. As the row happened at so late an hour we were unable to give any reliable particulars of the affair, or to learn the names of the parties engaged in it. One of the participants, a man named Peter Delafey, had his nose bitten off, and received a cut upon the right hip about an inch wide and three and one half inches deep. Fortunately the blade glanced from the bone of the pelvis, else the wound would necessarily have proved of a fatal character. A man named "Johnny" Robinson, a prominent fireman, was cut severely in the abdomen, and possibly his wound may prove fatal. Dr. Addison Athurs was called in at the tombs to dress Delaney's wounds, and he expressed the opinion that the wounded man made a very narrow escape with his life. Who used the knives or done the cutting could not be positively ascertained, but probably the matter will be cleared up to-day, at an investigation before Mayor McCarthy.

Point Alley Turmoil.

Two denizens of Rice's Court off Point alley, in the First ward, Mrs. Ellen Collins and Mrs. Mary Flaherty, presented themselves at the Mayor's office last evening, and entered complaint, one against the other, for disorderly conduct. The Mayor permitted each one to tell her own story. Mrs. Collins, naturally a good talker, appeared more than ordinarily stimulated and spiritedly declaimed against Mrs. Flaherty, making statements which, if not too highly wrought, would indicate the accused to be a thorough termagant and slanderer of the worst sort. Mrs. F. is a pure Celt, and labored under the disadvantage of being unable to speak aught else but the pure Irish, an interpreter being required. If there be goings on such as they represented in Point alley it a most delectable vicinage, wherein we should not like to dwell. The Mayor, after patiently hearing the complaints, disposed of the case by requiring Mrs. Flaherty to pay a fine of five dollars and the costs.

The Karneys and Loughreys, living neighbors in Cherry alley, had a spirited engagement yesterday, which, it seems, did not result satisfactorily to either side, inasmuch as the parties have invoked the interposition of the law in the settlement of their troubles, the minister selected being Alderman Strain. The elder Karney, whose first name is Patrick, instituted proceedings against William Lougarey and Sarah his wife for assault and battery and surety of the peace, alleging that he had been struck with a broom and sticks and stones, and that all manner of threats of violence had been made against him, while Lougarey, after his arrest, charged Karney with assault and battery, deposing to sufficient to establish the same. A hearing will be had in the case to-day, and the Alderman will, as is proverbial of him, endeavor to mete out even-handed justice.

Father and Son Fight.

Last evening John Riley and his son Owen, both under the influence of liquor, indulged in a fisticuff in the Diamond Market. The father some time since was before the Court accused of neglecting to support his family, and the son, meeting him last evening, twitted him on the subject, whereupon the father indulged in such abusive language as caused his offspring to strike him a blow in the mouth. Then followed a "rough and tumble" fight, and whilst the combatants were vigorously engaged, officer John Moessner interposed and separated them. They were handed over to the custody of the market constable and lodged in the tombs.

Where to Buy Your Boots.

We take pleasure in referring our readers to the card in another column, of Messrs. C. Fielding and Brother, retail dealers and manufacturers of Boots, Shoes, and Gaiters. They are experienced mechanics, and get up work of a superior character. They manufacture from the best of materials, and we know of no better place to secure a serviceable pair of boots or shoes. Repairing is attended to in a prompt and proper manner. A good assortment of ready made goods from the tiny bootling, to the immense brogan will be found upon their shelves. They are both clever and accomodating gentlemen, worthy of a larger share of public patronage. Their store is located at No. 140 Ohio street Allegheny city.

Railroad Collision—Brakesman Killed.—On Wednesday night two trains, a freight and passenger, collided on the Pittsburgh and Steubenville Railroad, in the vicinity of Walkers Mills, beyond Mansfield. A brakesman named Oscar Smith, was killed at his post on the platform of the front car of the passenger train. No others were injured—Deceased resided near Newark, Ohio. The accident is said to have resulted from the stoppage of the conductor's watch.

Didn't Do It.—Alderman Strain yesterday entertained a case of false pretense. J. R. Gardiner, of the Opera House, represented that he made an arrangement with one William Smith for the removal of some rubbish agreeing to give him fifteen dollars for the work and paying that amount in advance. Smith failed to fulfil the engagement, and hence Mr. G. prosecutes him for obtaining money under false pretenses. A warrant was issued for the arrest of the accused.

Coal Diggers on a Strike.—We learn that the coal diggers up the Allegheny are on a "strike," demanding five cents per bushel for their labor, instead of four, which they have been receiving. The demand is resisted, and as a consequence the different foundries, refineries, &c., in the Fifth and Ninth wards have ceased work. We also learn that the diggers on the Monongahela will also "turn out," in which event other manufactories will cease operations.

Journeymen Coach Makers.—We understand that a meeting of the journeymen coach makers of this city and vicinity will be held during the coming week for the purpose of taking into consideration the propriety of forming a Union, subordinate to the National Union. This branch of mechanics in this vicinity numbers some three hundred, but up to this time have never had an organization such as is now contemplated.

Brothers' Quarrel.—James and John Rodgers, residing in the Fifth ward, had a quarrel yesterday, which resulted in the former lodging complaint against the latter, before Alderman Strain, for surety of the peace, alleging that John had threatened to take his (James') life, saying that he had the "documents in his clothes to do it with." A warrant was issued.

Surety of the Peace.—Christian Schwartz made an information last evening before Alderman Donaldson against Adam Becker for surety of the peace. The offense consisted in the latter threatening to strike Schwartz on the head with a hatchet. Becker was arrested and held in $500 to keep the peace.

As Bailee.—In default of five hundred dollars bail, Justice Ammon, of East Birmingham, yesterday committed Jacob Aushutz to jail to answer a charge of larceny as bailee, brought by Peter Heilengel.

Larceny.—Benjamin Johnston was lodged in jail yesterday, to answer a charge of larceny, on oath of George Burnside. Mayor Morrison, of Allegheny, was the committing magistrate.

Larceny.—John Martine was, yesterday committed to jail by Justice Joseph Miller for the larceny of a bridle from the stable of William Perkins in Union township.

Hearing To-day.—John Garry yesterday prosecuted John McClarren for assault and battery. The case will be heard to-day before Alderman Strain.

Withdrawn.—The charge of larceny as bailee against Alderman Neillie, of Allegheny, brought before Alderman Strain, has been withdrawn.

Held to Bail.—Felise Jermy was held to bail in the sum of five hundred dollars, yesterday, by Alderman Albeitz, for selling liquor on Sunday.

SAVE THYSELF.
A CURE FOR INTEMPERANCE.
Dr. S. Cutter's Celebrated Stomach Bitters.
The greatest Nervine ever discovered. The addition, within the last ten years, of Dr. Cutter's Nervine Discovery to the English Bitters, makes it a perfect antidote to intemperance. Previous to his discovery of the Nervine, this medicine was before the English public, celebrated as a Tonic and Alterative, in diseases of the Stomach and of the Bowels, and diseases arising from impurities of the blood. As a nervine it is always the choice of the stomach, in all persons addicted to the use of stimulants and narcotics, such as alcohol and malt liquors, opium, morphia, arsenic, tobacco, &c., as it removes the morbid appetite, or craving of the stomach for stimulant; in Headache, Neuralgia, and all nervous diseases, it has no equal as a Nervine.
Ten years use of the improved English Bitters in St. Bartholomew's Hospital, St. Mary's Hospital, Newgate and other prisons, has established its reputation, as a cure for intemperance, and gained for it the approval of the attending surgeons in all the hospitals and prisons throughout Great Britain, and is prescribed now by many physicians in private practice, for persons addicted to the use of stimulants and sedatives. In Paralysis, St. Vitus' Dance, Epileptic Fits, Nervous Twitchings, and all nervous diseases, it has no equal. Wholesale and Retail Agent,

ANOTHER ALIENATION.

The President and the Democratic leaders were drawn together by identity of ideas and plans relative to Reconstruction. When they entered into negotiations for co-operation they thought they saw the way opening before them for the formation of a powerful party destined for many years to control the country. To this end it was conceived necessary to detach a considerable number of Republicans from old connections and associations. As the readiest way of producing this result, it was determined to make a corrupt use of the power of appointing to public offices. All Republicans who were found not to coincide with the President were to be turned out, and other Republicans found to be ductile and complying were to be put in. The Democratic leaders consented to this arrangement because of the prospective advantages it promised. The masses of the Democratic party failed to see why the President, after espousing their principles and measures, and confessing, in many ways, his reliance on them for support, should refuse them a proportionate participation in Executive patronage. They soon became restive and discontented.

Presently the democratic leaders detected evidences that they were not likely to gain, under the arrangement into which they had entered, that accession of numerical strength they anticipated, and which they held to be indispensable to success. Republicans were found to profess acceptance of "My Policy"—some from mistaken magnanimity and kindliness of disposition; others from a failure to comprehend that intrinsic Justice is the only enduring foundation of social and political order; and others from an inordinate greed for the distinctions and emoluments that come of place-holding. But, it became apparent that very few of these men were inclined to sever their connection with the republican party, or to withhold their votes from its candidates.

Here was disclosed a failure of the consideration for which the Democratic leaders entered into the contract. The consideration failing, they looked upon the contract as not binding; and we do not dispute the legitimacy of the conclusion. In consequence they demand a revision of the agreement; and proffer so much support for so much patronage. They demand that the President shall commence with his Cabinet, by removing all the Heads of Departments who are obnoxious to them, and thence work outwards through all the ramifications of the Administration. Some of their most influential organs threaten the President with fierce opposition if he shall continue to resist these importunities. These things have combined with others to produce a coolness between the President and the Democratic leaders.

To a full comprehension of the situation another point must be taken into account. Neither Congress nor the country have been greatly influenced by the intrigues of the President with the Democrats. The new Constitutional Amendment will pass each House by a majority of more than two thirds, and there is a fair prospect that it will be ratified by the requisite number of States. Recently, intimations have been dropped that the President is less inclined than he was to take open issue with Congress on this matter. If he shall acquiesce, a reasonable degree of harmony will be restored to the Republican organization. That party is not intolerant of diversities of opinion. It looks with decided favor upon independent thought and utterance. The child of agitation and controversy, its proper nourishment is discussion. It has demonstrated that it will not be coerced by Presidential pressure into a repudiation of doctrines. It has just as little inclination to constrain the freedom of its own members. In the Senate and House of Representatives, this has been admirably illustrated in the fullness with which each member has asserted his individual views, and in the readiness with which, for the sake of necessary co-operation, middle grounds have been selected in framing measures. No one objects to the exercise, by the President, of like liberty with other members of the party. Hence, it may happen that in reviewing the circumstances as they stand, the President may draw back, and close the rupture in the Republican ranks.

TREE-PLANTING.

The lack of trees is a serious inconvenience in many portions of the Western States and Territories. The first white settlers deplored the absence of lumber, and were careful to locate, whenever practicable, so as to enclose more or less forest within their respective boundaries. This was the only aspect of the matter which seemed to them worthy of special consideration. As population multiplied, and the scanty natural forests fell under the innovating axe, important climatic changes occurred. The soil did not retain the desired moisture. The streams, flooded by rains, rapidly dried up, and steadily diminished in volume. The atmosphere became parched. The tendencies all pointed to the slow conversion of the land into a desert. A long period might be required for the process, but the result seemed inevitable.

The earlier attempts at tree planting, whether for shade or fruit, or both combined, were not encouraging. In many villages various sorts of trees, indigenous and exotic, were tried for shade; but the most patient and skillful planting ended in disappointment. A corresponding failure attended efforts for the propagation of fruit orchards.

Latterly societies have been formed to conduct experiments and publish the results. Decided successes have been achieved. A degree of enthusiasm for tree planting has sprung up. Some large forests have already been created, and the chances now are that the transformation will go on until western towns shall be embowered in shade, and the prairies at frequent intervals shall be studded with luxuriant forests.

UNION PACIFIC RAILROAD.

Report of Springer Harbaugh, Esq.

PITTSBURGH, May 17, 1866.

SIR:—In compliance with the duties imposed upon the Government Directors of the Union Pacific Railroad, I have the honor to report.

At the request of the Vice President I accompanied him to Omaha, Nebraska, arriving there Saturday, April 28th, and spent eleven days on the line of operations in a personal examination of everything that would tend to give me an intelligent idea touching the condition, management, and progress of the work. On our reaching the initial point at Omaha, I found the Burnettizing buildings, temporary Car House and Saw Mill, considerable construction material, and the low river base of the Company's operations submerged by the overflowing waters of the Missouri to an average depth of say from one to three feet. The general business of the Company was interrupted for about two weeks, say from the 23d of April until the 7th of May. By the active management and exertions of Samuel B. Reed, Esq., General Superintendent, his assistants, and employees, the Company's movable property was, to a great extent, removed and secured, so that it was supposed the absolute loss to the contracting company will not be very great, yet at a considerable cost of time and money. I am pleased to be able to report the Company's permanent brick machine and work shops are situated on more elevated grounds further from the river, and not in the least damaged. I think it would have taken from four to five feet more of a rise in the waters to have materially affected them. I was informed that the greatest floods known by any of the present inhabitants were in April, 1857, and in June, 1862. The flood of this year was, according to their data and recollections, within about seven inches as high as that of 1857, and within twelve to eighteen inches as high as the flood of 1862.

To provide against loss and interruption to the business of the road by a recurrence of these overflows, should receive the early attention of the Board of Managers of the Company.

The machine and work shops, engine house, and turn tables of the Company at Omaha, erected, as I was informed, in the unprecedented short time of sixty-five days, during last fall and winter, which contain one million one hundred thousand (1,100,000) well burned brick, good stone foundations, and metallic roofs, are of the most permanent character, and conveniently arranged. The machinery in the same is sufficient for the present wants of the Company, and of the latest and most approved construction.

On the 3d inst. I accompanied the Vice President and and Consulting Engineer of the Company over the line of completed road to a point near Shell Creek, a distance of seventy-five miles. We found the line in good condition, and it will compare favorably with any newly constructed Western road. At this point the track layers under the Superintendency of General J. Casement, were energetically pushing the work at the rate of three-quarters of a mile to one mile per day; additional boarding cars, sleeping cars, and tents were being provided, so as to increase the track laying force, which, I since learn by telegraph has been done, and the work is now progressing at the rate of about seven thousand feet per day.

I confidently believe the first one hundred miles will be completed by the first day of June, whereby the act of incorporation requiring one hundred miles of road to be built will be fully complied with. The energetic contractors informed me, that they contemplated providing artificial lights, to expedite the work, by night as well as by day, and if possible, complete one mile and a-half to two miles, every twenty-four hours.

From Shell Creek I accompanied Col. S. Seymour, Consulting Engineer, to the "Loup Fork," and over a portion of the grading on the second one hundred miles. I am pleased to be able to report that the temporary bridge over this river is completed, and ready for the track layers. The energy displayed by Messrs Dort and Butterfield, the contractors on this work, as well as by Mr. Reed, General Superintendent, and Messrs. Case and Hurd, Division Engineers, deserves honorable mention. The first pile was driven March 22d, and the last one May 2d. The bridge is fifteen hundred feet long, with fifty-seven bents, three piles each, and thirty-seven bents, four piles each, in all three hundred and nineteen piles. The permanent bridge which is intended to take the place of the temporary one is being pushed forward with vigor, five pier pile foundations, and two pile abutments are driven. The masonry of this structure will most likely be lime stone transported from the quarries of the Pappilior.

I am informed no stone has yet been found between the Elkhorn and a point on the Bluffs, about one hundred and ten miles beyond Fort Kearney, where it is supposed a good quality can be procured. The only bridging of any importance between Loup Fork river and Fort Kearney, is one of one hundred feet span, over Wood river, about seventy-five miles west of Loup Fork.

The grading on the second one hundred miles, can and I think will be completed by the 15th of June. A corps of engineers have been sent out to definitely locate the third one hundred miles.

Returning to Omaha I spent several days with the consulting engineer, examining the river banks, and the effect of the overflow of the river bottoms for several miles up and down the Iowa and Nebraska sides of the Missouri. The proper site for a bridge crossing of this river, is a subject of momentous importance, not only to this Company, but to the country, and to the various railways pointing to connections with it, and it should be definitely settled at an early day, for the benefit of the various interests involved. Surveys and soundings have been made; the maps and profiles are being prepared, so that it is hoped intelligent conclusions may be arrived at.

Of equipment, I find there are five locomotives now on the line of road, four more in transit, which, at this time, I presume, have reached the line of road—an additional seven, contracted for, to be delivered by the 10th of June; two first-class passenger coaches on line of road, one more in transit, and two additional ones to be delivered in June; 119 box and platform cars on line of road and in transit between Hannibal and St. Joseph.

CONSTRUCTION MATERIAL.

The Vice President informs me that the railroad iron chairs and spikes delivered, in transit and provided for, will be sufficient to reach a little beyond the 100th meridian, say 250 miles from Omaha.

The General Superintendent informed me that the ties on hand and paid for, from Omaha to Grand Island, numbered 116,900

Under contract from points on the Missouri, above and below Omaha,	134,000
Under contract on line of road, 1st 100 miles,	35,000
Under contract on line of road, 2d 100 miles,	80,000
Under contract on line of road, 3d 100 miles, being red cedar, to be delivered by January 1st, 1867,	100,000
Estimated to be delivered under verbal contract,	15,000
Estimated to be delivered from contractors' lands, at three different points,	170,000
Total,	650,900

Being sufficient ties for the construction of over 250 miles of road.

The Company is still put to serious inconvenience for want of railway connections to and from the East. I am pleased to be able to report that these difficulties will certainly be obviated next year. Most of the railroads through Iowa, pointing to connections with the Union Pacific, are making more or less progress, whilst some are pushing ahead with commendable vigor. The Cedar Rapids and Missouri River Railroad Company, under the active management of Jno. T. Blair, Esq., of New Jersey, have put their entire work, from Boonsboro' (its present terminus) to the Missouri river, under contract. A force of fully 1,500 men, with sufficient teams, is now employed upon the work. All of the grading on the first forty miles west of Boonsboro' will be completed by the 10th of July. This embraces some of the heaviest work on the line.

The bridge over the Des Moines river, 840 feet, and including its approaches 1,000 feet in length, is completed, and the track is laid five and a half miles west of Boonsboro; 520,000 ties contracted for, and being delivered; and 8,800 tons of iron, sufficient for 120 miles of road and bridges, on hand at the Des Moines River and in transit.

For this intelligence I am under obligations to W. W. Walker, Esq., Chief Engineer. I confidently believe that this work, with its energetic management and its abundance of means, can reach the initial point of the Union Pacific within the next twelve (12) months.

The Mississippi and Missouri Railroad is about passing into new hands, who have the ability, and whose interest will manifestly be to reach the Missouri River at the earliest day possible.

The Burlington and Missouri River Railroad Company, I am informed, have a large force at work, constructing westward. I am also informed that the Des Moines Valley Railroad is making rapid progress, and confidently expect to reach the city of Des Moines within a few months. The American Central Railway, recently organized, or rather re organized, is, I am informed, under contract from Fort Wayne, Indiana, to the Missouri River, to be completed to New Boston, on the Mississippi River, in three years from the 1st of January, 1866; and from thence to the Missouri River within two years thereafter.

I am informed by Willis Phelps, Esq., who with his associates are constructing the Council Bluffs and St. Joseph Railroad, that they expect to be able to complete their road within this year, if some of the legal difficulties on the Missouri portion of the line can be overcome within a short time. The ties for the entire road are provided, and one fifth of the iron is in transit.

I could not learn of much progress being made westward on the Dubuque and Sioux City Railroad. I herewith append a small map showing the probable connections, at an early day, of the several lines, through the State of Iowa, with the Union Pacific Railroad. These lines will be feeders as well as receivers of a trade and business of no ordinary magnitude.

I think the question of the future business of the road merits our earnest consideration. The entire nation has a substantial interest and investment in it; every section completed opens up new fields for improvement, and from whence new sources of revenue may be derived. It has been assumed that the tonnage westward will be largely in excess of the tonnage eastward.

This theory, I am convinced, will not be practically sustained after the great through line is fairly opened for business and in successful operation. The cheap iron ores of Lake Superior, costing at the mines say three dollars and fifty cents per gross ton, are transported by rail to the Lake; thence by water say 600 miles, and by rail say 200 miles, (in all about 800 miles) costing, on an average, ten dollars per ton, including everything at points for extracting and working the same, feeding a great number of blast furnaces, yielding 66⅔ per cent. of pure pig iron, worth at this time, say forty-two dollars per ton, supplying more than one half of the metal consumed by all the rolling mills of northeastern Ohio and western Pennsylvania, and all of this trade has been created since 1858 or 1859.*

I am informed that the copper mines of New Mexico are now being successfully worked. The ores are smelted, the cost of mining, and smelting being about five cents per pound. The copper taken to Guaymas, Sonora, a distance of about 500 miles of land carriage, at a cost of seven cents per pound. Thence to our eastern sea board or Europe at a cost of one cent per pound, thus making the actual cost of the refined copper, at the consuming points, about thirteen cents per pound, when the net cost of the Lake Superior refined copper, delivered at Pittsburgh or New York, will now average from twenty-two to twenty four cents per pound.‡

I am also informed that silver ore is being transported by wagons from Nevada to San Francisco, a distance of about 250 miles, and thence is shipped to England for smelting.

It is therefore no great stretch of the imagination to believe that the tonnage of this great national highway will, at no distant day, consist largely of the precious ores, (including copper) from the mineral districts of our western States and Territories to the eastern States, where cheap fuel, cheap labor and improved machinery will be used for their smelting and refining.

The completion of this gigantic interoceanic enterprise within the time designated by the act of incorporation, begins to assume a decided probability.

It is worthy the efforts of the nation. We can now contemplate the early connection of the distant parts of our Union, the development of our rich mineral and agricultural domain, and the great benefits that must inure to the nation, borne down by new responsibilities.

I am informed by the Vice President that a geological examination of the country for the first one hundred miles on the company's lands is now being made by Professor Eggleson and his assistants.

In closing this report I desire to express my obligations to the Consulting Engineer and the several officers of the company on the line of road, for their uniform courtesy and the information they promptly furnished me with. I also desire to acknowledge the kind and gentlemanly treatment I received from Thomas C. Durant, Esq., Vice President, whom I accompanied to Omaha, whose heart, mind and money have been devoted to the enterprise from its first inception. The public spirited gentlemen who are contributing so largely of their means in the prosecution of this work, which is destined to conduct a traffic of extraordinary magnitude, merit substantial returns on their investments.

I am, sir, very respectfully,
Your obedient servant,
SPRINGER HARBAUGH,
Gov't. Director Union Pacific R. R. Co.
To Hon. JAMES HARLAN, Secretary of the Interior, Washington, D. C.

*For this information I am indebted to Jas. I. Bennett, Esq., who has been largely interested in the iron business of Pennsylvania, and Lake Superior.

‡For this information I am indebted to Dr. Curtiss G. Hussey and Col. James M. Cooper, of Pittsburgh, pioneers in the copper and mineral business of our country.

POSTPONEMENT.
THE UNITED STATES
PRIZE CONCERT,
TO HAVE BEEN GIVEN AT
Crosby's Opera House, Chicago,
MAY 28th, 1866,
Will be postponed until
Monday, July 9th, '66,
On which occasion
HALF A MILLION DOLLARS IN PRIZES
Will be presented to Ticket Holders, including
$100,000 IN GREENBACKS.
The postponement is an unavoidable necessity, (not so much in consequence of the number of tickets yet unsold) as the positive necessity there is for the proper registration of those already disposed of, which has been delayed in consequence of the negligence and carelessness of a portion of our Agents in making their proper returns.
We advise all parties wanting tickets to send for them without delay, as we have but a limited number yet on hand. We wish most particularly to impress upon the minds of our Agents the importance of their making their returns at once, and of rectifying whatever errors may have crept into their reports heretofore. We will say to those sending for tickets, that if they should all be sold at the time their order is received, the money will be refunded.
No applications for new agencies for the sale of tickets will be considered, as we have no more than sufficient tickets to supply those Agents we have already appointed. Tickets are for sale at the principal hotels, book and music stores in the city, and at our office, 133 Dearborn street; price $1.00 each; sent by mail on receipt of price and stamp for return postage.
We invite the particular attention of persons wishing to order tickets by mail to the following
SPECIAL TERMS OR CLUB RATES;
Any party procuring a club of 5 or more names for tickets, and forwarding us money for the same, will be allowed the following commission viz:
WE WILL SEND

5 Tickets to one address for	$4 50

20 " " "	17 50
30 " " "	26 25
40 " " "	35 00
50 " " "	43 50
100 " " "	85 00

In every case send the name and Postoffice, address of each separate subscriber.
Money by draft, Postoffice Order, Express, or in Registered Letters, may be sent at our risk.
All communications should be addressed to
WIGGINS, BRADFORD & CO.,
133 DEARBORN STREET,
CHICAGO, ILL.
The proprietors will donate to the Lincoln and Douglas Monument Funds $2,000; also, there will be $2,000 reserved from the person drawing the $30,000 prize, for the same purpose.

NATIONAL MILITARY ASYLUM.

The Managers of the National Asylum for discharged volunteer soldiers, authorized by Act of Congress, approved March 21, 1866, ask proposals for sites for Asylums by donation or sale. The premises must be situate in one of the Loyal States, contain at least 200 acres of land, and be in a healthy location and easy of access by railroad or otherwise. It is the purpose of the managers to erect, without delay, extensive and permanent buildings for said Asylums, and its establishment will be largely advantageous to any section or railroad in the vicinity of its location.

Plans, specifications and estimates for Asylum buildings, including detached cottages, are also asked for the approval of the Board. Liberal compensation will be given for the successful plan.

Proposals, plans, specifications and estimates—the first named to be in writing, containing plot and description of grounds and terms and conditions of transfer—must be sent to Major General B. F. BUTLER, at Lowell, Mass., on or before the 20th day of June, 1866.
BENJ. F. BUTLER,
President Board of Managers.
LEWIS B. GUNCKEL, Secretary.

Papers entitled to publish the Laws of the United States are respectfully requested to publish this three (3) weeks prior to the 20th of June, 1866, and send their bill, with copy of notice, as above directed. je4:c5

CITY AND NEIGHBORHOOD.

(Additional on First Page.)

United Presbyterian General Assembly.

SEVENTH DAY.

The Assembly met at the usual hour yesterday morning, and was opened with prayer by the Moderator. On motion the reading of the minutes of the preceding session, and the calling of the roll, were dispensed with.

The Committee on Correspondence submitted a report, which was accepted and adopted and ordered to be printed.

The order of the day, being the report of the Committee on a new version of Psalms, was taken up. Pending the discussion on the first resolution, the second order of the day was called for, being the reception of the delegate from the Synod of the Reformed Presbyterian Church, O. S.

Rev. John Scott, of the Reformed Presbyterian Synod was then introduced and extended the Christian salutations of the body he represented to the Assembly.

The Moderator, Dr. Kerr, responded in an appropriate manner on behalf of the Synod.

The Assembly then resumed the consideration of the first resolution of the Committee on Psalmody, which is as follows:

Resolved, That the twenty-five versions specified in the list as having a majority of three-fourths of the votes cast be adopted as amended by the committee.

After considerable debate a call was made for the previous question, but the call was negatived by a vote of 54 for and 70 against.

Rev. M. Carson moved for a reconsideration of the resolution requiring the vote to be taken on the entire resolution. Adopted.

On motion the Assembly proceeded to vote separately on the twenty-five versions which were reported by the Committee as having received a three-fourth vote in the Presbyteries, and the following Psalms were adopted: 5; 19, first version; 29, 29, 12 and 13; 34; 43, L. M.; 61; 65; 67; 84; 85, L. M.; 93; 95; 103; 114; 121; 123, L. M.; 125; 130; 132, 8's and 7's; 133; 138; 146, 8's and 7's; 148, 8's and 7's; 149. Total, 25.

Rev. Mr. Bradford moved that the Assembly proceed to vote on the adoption of the versions reported by the Committee as having received a two-third vote in Presbyteries.

A motion was made to lay the remaining portion of the report on the table. Lost.

The Moderator decided that the resolution of Mr. Bradford was not in order, as it was substantially the same as the second resolution of the Committee's report.

Rev. Dr. Van Eaton proposed the following substitute for the second and third resolutions:

Resolved, That the versions which the Assembly shall not adopt at this meeting, except the fourteen specified in the list as rejected, be continued in overture until the meeting of the next General Assembly, together with the amendment adopted by the committee, and also the second volume of versions.

The substitute was adopted by a two-third vote.

The fourth, fifth, sixth and seventh resolutions and preamble were adopted. The report, amended, was then adopted as a whole.

The Assembly then adjourned with prayer by Rev. Mr. Mott.

AFTERNOON SESSION.

The Assembly met at two o'clock, and was called to order by the Moderator. Prayer was offered by Rev. Dr. Beveridge, after which the committee appointed by the last Assembly to prepare a report of a uniform curriculum of studies for our Theological Seminaries, handed in their report, which was read. On motion of Rev. H. H. Blair, an evening session was ordered for half-past seven o'clock. On motion of Rev. W. W. Waddell, the report was made the general order of the day for the evening session. Rev. R. D. Harper of Xenia, O., presented a communication from Rev. M. Agyee, stating that a legacy of $200, bequeathed the Board of Home Missions by Mr. Black was ready to be paid to the Board.

On motion of Rev. D. E. Bradford, the sum was appropriated to the colored church at Nashville, Tenn.

The Committee on the report of the Board of Church Extension then handed in their report which was read and accepted. The report recommends the re-election of the present officers of the Board for the ensuing year.

The Committee on Bills and Overtures reported on the memorial of the Monmouth Presbytery, in reference to the Theological seminaries.

Rev. J. F. Carson stated that he had deposited $1,000, together with interest for last year, from Ebenezer Brownlee, in the hands of the Treasurer of the Board of Home Missions.

The report of the Judicial Committee on the memorials of the Presbyteries of Frankfort, Muskingum, &c., in reference to a work entitled "Church Fellowship," published in Cincinnati by Rev. W. C. McCune, was then taken up.

There being a majority and minority report presented, it was decided by the Moderator to take up that of the majority first, which was accordingly done.

The following is the report of the majority:

Resolved, That the action of the Presbyteries in bringing this matter to the notice of the Assembly is heartily approved of.

Resolved, That the case of Rev. W. C. McCune be submitted to the First Presbytery of Ohio, of which he is a member, that proceedings may be instituted by that Presbytery for his trial in regard to the publication of certain doctrines on the subject of Church Fellowship, represented in this Assembly by several Presbyteries to be in opposition to the standards of the Church, and therefore censurable.

Resolved, That a certified copy of the foregoing resolution be transmitted to the Clerk of the First Presbytery of Ohio by the Clerk of this Assembly.

After an exciting debate the report as read was adopted.

Rev. Dr. Beveridge moved that the resolution of the minority report be added to those already adopted. The Clerk read the resolution, which is as follows:

Resolved, That we regard it as inconsistent with that integrity which should characterize the followers of Christ to espouse a profession and under the garb of that profession to assail its well known and acknowledged principles.

Rev. H. H. Blair expressed himself opposed to prejudging any one, and as the last resolution had a tendency to prejudge Mr. M'Cune before the Assembly had acquainted themselves with the contents of the book in question, he would not advocate it.

Rev. Dr. Beveridge then offered the following which, after an animated discussion, also passed:

Resolved, That in the judgment of this Assembly no persons should be tolerated in the communion of the church who advocated principles in opposition to the standards of the church.

The report of the Committee on Bills and Overtures, with regard to the use of musical instruments in church worship, was called for by the Moderator, but on motion the matter was recommitted to the committee with the proviso that they report to-day at ten o'clock.

The report of the Committee on the Home Mission Board, in relation to the California Mission, was then taken up as an item of unfinished business. The committee reported in favor of granting the sum of $20,000 toward the erection of a church in San Francisco, the sum to be raised by contributions among the various congregations of the Presbyterian church of North America.

Rev. J. G. Corsin offered an amendment that the money be taken from the fund of the Board of Church Extension.

After an animated debate the amendment was lost, and the whole matter was referred to the Committee on the Board of Church Extension.

The report of the Committee on the Home Mission Board in relation to the California Mission was next called on as an item of unfinished business. The Committee reported in favor of granting the sum of $29,000 for the erection of a church in San Francisco.

Rev. J. G. Carson moved that the money be taken from the fund of the Board on Church Extension.

A protracted debate ensued on the merits of the San Francisco Mission, which some of the delegates pronounced to be an utter failure.

At length Rev. Carson's amendment was lost and the entire matter was referred to the Committee on Church Extension.

A motion was made to strike out the name of Rev. J. Miller from the list of appointments to serve in Tennessee, which was lost.

A motion was made that the name of Isaac A. Wooden be added to the list of ministers to serve in the far West. Adopted.

A resolution was offered that $3,000 be added to the appropriations made to the Home Mission Fund. Adopted.

The report of the Committee on Home Missions, which had not been acted on at the morning session, was then taken up, and the remaining resolutions of the report adopted.

After prayer, the Assembly adjourned.

A Model Grocery House.

We are willing to concede to Allegheny a superiority in many things, and an equality to everything upon this side of the water. Her mercantile establishments are, as a general thing, fully up to the standard of the times, while her merchants know how to become prosperous in their business. Of the many first class houses upon that side of the water, we would specially call attention to the well known grocery and liquor store of R. P. Getty, No. 55 Ohio street, corner of the Diamond. We paid a visit to the establishment yesterday, and looked through the various departments. All the superior qualities of teas, coffees, sugars, spices, dried fruits, crackers, molasses, and groceries of every description are on hand, and for sale at prices exceedingly low and reasonable. Mr. Getty has just imported a large stock of fragrant Havana and other choice brands of cigars which he offers at great bargains. His liquor rooms are stocked with the best and purest of whiskies, wines, gins, and cordials, suitable for the bar, table and medicinal purposes. The store is well managed and complete in every department and should serve as a model to other dealers. Mr. Getty is a fair dealing trustworthy gentleman, deserving of the large custom he already controls.

Moreland & Mitchell.

We take pleasure in calling the attention of our readers to the card of Messrs. Moreland & Mitchell, proprietors of the popular and extensive livery stables, Nos. 425 and 427 Liberty street. They have long enjoyed the reputation of keeping the fleetest and best broken spirited nags of the city, and persons desirous of hiring such stock as they will not be ashamed to drive would do well to give them a call. They have a large number of the neatest and jauntiest gigs and buggies, the most elegant barouches and chaises, and the most magnificent of carriages and rockaways. They reserve none of their stock or vehicles for a few favorite patrons, but hire indiscriminately to all who favor them with their call. They are constantly adding to their stock, and we do not say too much in claiming for this establishment an excellence not attained by eastern stables. The firm is composed of careful and obliging gentlemen, eminently worthy of the popularity they enjoy among all classes who have had dealings with them.

Motion Refused.—In the Court of Common Pleas, Judge Stowe refused to dissolve the preliminary injunction against John P. Hunt, the publisher of the *Republic*.

OUR EARLY TELEGRAMS.

FENIAN MOVEMENTS.

10,000 on the Canada Border.

ADVANCE ORDERED BY GEN. SWEENY.

Grand Movement Commenced in Earnest.

FENIAN EXCITEMENT AT SYRACUSE.

Reported Arrest of Gen. Sweeny.

NEW YORK, June 7.—Specials from Ogdensburg say the movements of the Fenians in that quarter continue brisk. Since Friday at least 1,500 passed through there towards the Canada border, and there is reliable information that nearly 10,000 are concentrated there.

A Kingston, Canada West, dispatch of the 6th says: There are 3,000 troops here—one half being regulars.

A dispatch from Franklin, Vermont, last night, says: The Fenians, about 2,000 strong, will make a reconnoissance to-night in Canada, pick out a place for camping on the other side of the line, entrench and have the men come up. They are to gather supplies and forage upon the enemy, after which they will move. An attack will undoubtedly be made about daybreak.

A dispatch from St. Albans, yesterday, says General Sweeny has ordered an advance. General Mahon commands the movement, and General Spear is bringing up the support.

The United States Regulars are represented as sympathizing strongly with the Fenians.

The British soldiers who were at St. Armand, have gone to St. Alexander.

The British accounts say there are 5,000 Fenians between Newport and Malone. The grand movement appears to have commenced in earnest.

Fenians and supply wagons were constantly moving yesterday between St. Albans, East Highgate and Franklin.

Dispatches from Rutland, Vt., say the U. S. authorities seized large quantities of Fenian arms and ammunition at Essex Junction last night, which arrived from Boston. Sweeny, however would push forward last night or this morning Montreal is believed to be his main object, though one or two lesser points may first be used as bases.

BUFFALO, June 7.—Six Fenian officers were brought before U. S. Commissioner Parker this morning. H. Mooney, of Buffalo, was released on bail of $5,000 to appear at this Court on Thursday next. Colonel O'Neill, J. M. Fogarty, William Smith, M. Falvey, and James Egan gave bonds for $6,000 to appear on the 19th at Canandaigua, to answer before Judge Shipman, of the United States District Court. These men are now around town receiving the congratulations of their friends. Fenians are still arriving here; some stay and others go east. They are very reticent, but repeat the old story of going to work on railroads. None are armed, but occasionally a man has a sabre.

O'Day, Head Centre of this district, is in New York for instructions.

The recent orders from Washington about arresting the leaders, makes considerable talk, but the men are apparently in good spirits, and only await orders to attend to business. No means for their subsistence is provided, and they are scattered all over the city among their Irish sympathizers.

TORONTO, C. W., June 7.—All is quiet at the various points on the Western frontier. The action of the United States Government regarding the Fenian movement causes the greatest satisfaction.

Parliament meets to-morrow, when no doubt the government will be empowered to suspend the habeas corpus in order to bring to trial by court martial lawless aggressors like the Fenians.

SYRACUSE, N. Y., June 7.—Great excitement prevailed among the Fenians last night. Six thousand dollars was raised at a meeting here, and a hundred and ten men were sent to the front. Several car loads of Fenians also arrived yesterday, and passed Eastward on the 12:10 train last night.

BOSTON, June 7.—A St. Albans dispatch to the *Traveler* says: At 12 o'clock last night Gen. Sweeny was arrested by order of Maj. Gibson, commander of the regulars here. Gen. Sweeny was arrested at the Tremont House, and offered no resistance. He is now at the officers' headquarters on the Common, under arrest.

Last night the train from Boston did not go through to Montreal via St. Armand, but via Rouse's Point, it being apprehended that the track would be torn up by the Fenians.

FRANKLIN, PA., June 7.—Three hundred Fenians marched to the depot this A. M. and then marched back again.

FROM WASHINGTON.

Soldiers and Sailors Orphans' Fair—Senor Romero Declines an Interview with Santa Anna—Criminal Pardons Since April, '65—Railroad Strike—New Eastern Military Department—Breckinridge to be Indicted for Treason.

WASHINGTON, June 7.—The National Fair for the benefit of the Sailors and Soldiers Orphans Home, was inaugurated at Washington last night. Senator Wilson presided and introduced Major General Howard, Major General Banks, Colonel McKee, and finally President Johnson to the large assemblage. The President remarked that he came there merely to say a word in the cause cause of humanity, and to unite in the expression of the nation's gratitude to the nation's defenders; what nobler object than the present could we engage in. The education of the destitute orphans of our soldiers would be a work of peace. There was a very large crowd present and the initiatory exhibition was a complete success.

The New York morning papers have following specials from Washington: Senor Romero still declines having any official intercourse with Santa Anna, although the letter has written a full explanation of his motives and objects to him.

The number of criminal pardons issued since April 15th, 1865, is officially reported at 164, and for political offences 12,351.

The railroad companies of New England have struck for higher prices for carrying the mails.

In consequence of the Fenian demonstration upon Canada, it has been found necessary to create three new Military Districts in the Department of the East. The line of the Northern frontier from and including Erie, Pa., and Oswego, will constitute the District of Ontario, with headquarters at Buffalo, New York. Brevet Brigadier General W. F. Barry, Colonel of Second Artillery, has been assigned to this command.

That portion of the northern frontier from and exclusive of Oswego, New York, to the point at which the nothern boundary of the State of New York leaves the river St. Lawrence, with headquarters at Ogdensburg, New York. Colonel J. Vodgers, First Artillery, is assigned to this command.

That portion of the Northern frontier, from the point at which the Northern boundary of the State of New York leaves the river St. Lawrence, eastwardly to Island Pond, New Hampshire, and to include Plattsburg, New York, will constitute the District of Champlain, headquarters at St. Albans. Maj. A. A. Gibson, Third Artillery, is assigned to the command.

The District of the St. Croix has been abolished.

The House Committee will report against admitting Utah as a State, but some of them favor a military government.

A dispatch from Richmond of yesterday says the case of John C. Breckinridge is before the Grand Jury, and a true bill of treason will be found.

The Cholera in New York.

NEW YORK, June 7.—Since the last report from Quarantine eight new cases and nine deaths from cholera have occurred. There are remaining on the hospital ship sixty-seven cases. The Board of Health occupied Seguin's Point yesterday. Many threats but no resistance has yet been made. There is a sufficient force there to guard the grounds.

School House Blown Down—Seven Children Killed and Nine Wounded.

AUGUSTA, GA., June 5.—In a tornado to-day a school house was thrown down and seven children were killed and nine wounded. The crops are seriously damaged by the heat.

Death of Captain Menter.

CINCINNATI, June 7.—Captain Menter died last night from the effects of his wound.

NOTICES.

NOTICE.

OFFICE UNITED STATES PRIZE CONCERT, }
WIGGINS, BRADFORD & CO., Proprietors. }

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent (and we trust satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory,

WE HAVE POSTPONED THE DRAWING

UNTIL THE

9th Day of July, 1866.

J. F. DAY,
J. L. M'ABOY,
NORMAN SPANG.

In announcing the above change, we beg leave to say to the trade that we shall continue the business of Manufacturing and importing SADDLERY HARDWARE in all its branches, and desire to call special attention to our own Manufacture of STAGE HAMES of all descriptions, IRON HAMES, WROUGHT PORT BITS, &c., &c., which we believe to be the best in the market for this and the Western trade. We shall at all times keep a full and complete assortment of everything in our line, which we shall be glad to sell at lowest market rates.

By giving prompt personal attention to orders, we hope to merit and receive a liberal share of your patronage.

DAY, M'ABOY & SPANG.

FINANCE AND TRADE.

THURSDAY, June 7, 1866.

The more favorable character of the foreign advices by the last steamer has caused a decline in gold from 146¾ to 143⅞, though to-day the market is higher but weak. The following are the New York quotations to-day as received by Mr. P. R. Mertz: Gold, 145; 1881's, 109⅝; 5-20's, 102¾; 10-40's, 96; 7-30's, 102¾@102⅞. Bennehoff Run, (oil) 12¾; Pithole Creek, 2¼; United States, 5; Gregory gold, 10½; Quartz, 4½; Parmalee, 9½. Cleveland & Pittsburgh Railroad, 83½; Pittsburgh & Fort Wayne, 97; Erie, 63.

As will be seen from the above, Governments have all advanced to former quotations, except the first issue of 7-30's. 5-20's, in the face of rumors of heavy shipments from Frankfort-on-the-Maine, advanced a quarter per cent in New York to-day. As soon as the heavy shipments of coin from this country to England become known there, the desire to sell our bonds at a sacrifice will subside. Letters from Germany state that business generally has become completely paralyzed; that real estate can scarcely be sold at all, therefore, the necessity of parting with our bonds even below their value, though all those who bought when gold commanded a high premium, will realize a handsome profit on their investment.

It is an error to suppose that the war rumors in Germany, and in fact, in all Central Europe, are the prime causes of the financial pinch in England. She has been overtrading, and notwithstanding there was no inflation in values caused by the expanding of the circulating bank notes over the specie reserves there was what is more dangerous, an expansion of credit, which created a large amount of commercial paper, the effects of which will not be felt at once on the market, but will gradually appreciate values, more particularly stocks and bonds, than the necessaries of life, and create a general desire to speculate.

It is currently reported that another prominent banking house in **Philadelphia** has suspended. We are without particulars, further than it is said to have created considerable excitement in financial circles there. The rumor in regard to the embarrassment of some prominent railroad officials, is believed to have some foundation, though as yet, no developments have been made.

—In reference to the ten per cent tax on State bank circulation, the impression obtains, to a considerable extent, that in consequence of the law of Congress, the *holders* of State Bank bills will be subject to a tax of ten per centum on paying them out, after the 1st of July next; and there are bankers who suppose they subject to a like tax on all their *outstanding circulation* at that date. Nothing is more erroneous. The language of the law is that banks only are subject to the tax, and that, not on their outstanding circulation, but only on such notes as they shall pay out. Holders of State bank bills, not bankers, are not subject to the tax. They may hold them, or pass them, the same as usual.

—In their circular for the foreign steamer Cuba, Messrs. Wotherspoon & Co., of New York, say:

"Exchange on London is 109¾. At this rate, with double eagles at ⅜ premium, and interest in London at 10 per cent there is a clear net profit on the shipment of gold of ⅜ per cent at 76s 3d per oz in London. Gold at 144½ gives for exchange on London 158½ in currency. At this rate, with Five Twenties in London at 64, and interest at 10 per cent, there is a net loss on their shipment to this country of nearly 4 per cent, while on the other hand shipment from this side to London at these rates would yield a profit of fully 1½ per cent, showing that they actually sell at a less price here than in London. It is a singular anomaly that the public securities of the richest and most powerful country in the world should be so depreciated in the two principal money markets in the world—New York and London. The shipments of gold from New York to England during the month of May are not far short of thirty millions of dollars. The exports of produce, &c., to European markets during the same period exceed twenty millions of dollars in gold values, making an aggregate of upward of fifty millions of dollars, or say ten millions sterling of remittances in one single month, chiefly, almost exclusively, to Great Britain. The exports, including specie, from the United States for the last six months show an excess over imports of upward of fifty millions of dollars in gold value; and it is still more noteworthy that the whole amount of the exports from Great Britain to the United States, for 1865, only reached £21,000,000. Notwithstanding the large export of gold reported above, the balance in the Sub-Treasury and the Banks of this City amounts to nearly sixty millions of dollars in addition to ten millions reported as being in the hands of the speculators for a rise."

—The Cincinnati *Gazette*, of Wednesday, announces the failure of Caldwell Brothers, private bankers of Newport, Kentucky, and adds:

"The amount of money on deposit in the institution was between fifty and sixty thousand dollars, nearly all belonging to citizens of Newport. The Caldwell Brothers have been carrying on the banking business in this city for about twelve years, and have always borne a high reputation for strict honesty and integrity. The cause of their failure is attributed to speculations in whisky, and the building of three fruit preserving houses; one in this city, one in Covington, and one in Detroit. The disaster falls pretty heavily on quite a number of very poor people in this city, who had their all deposited in the bank. The Messrs. Caldwell closed their doors at 11 o'clock A. M., and made an assignment to J. R. Morin, for the benefit of their creditors. It is stated that there are mortgages to the amount of $45,000 on the three fruit houses. From all we hear, depositors will not realize more than ten cents on the dollar, as it is generally believed that nearly all the property of the Caldwells is covered by mortgages. They continued to receive money on deposit at their bank until Monday morning.

New York Stock and Money Market.

NEW YORK, June 7.—Gold closed heavy at 143. The Money Market remains easy at 5@6 per cent. for call loans. Prime discounts are current at 6@7 per cent. The Exchange market was dull and lower this afternoon; sixty days' bankers' bills are quoted at 109¾. The Government securities were firm this afternoon, and the advance on 5-20's was well sustained. The second regular board was firm and recovered a little from the lowest point of the day. The last open board was all higher, with more demand in leading shares; Erie was the feature, and sold up to 63¾. The market has been unsettled throughout the day, by false reports of failures, but is now recovering from this fright. Among the miscellaneous shares, Western Union Telegraph was firm at 61½@61½.

The market for Petroleum and Mining shares was quiet and steady at both sessions to-day. United States was higher and more in demand.

NEW YORK, June 7.—Money easy at 6 per cent. Sterling steady, at 108¾@109½ for Commercial, and 109⅞@110 for Bankers' Bills. Gold irregular, unsettled and lower, opening at 145½, advancing to 145⅝, and closing at 142¾.

Governments firm. Freights to Liverpool dull and drooping.

Stocks dull; Milwaukie and St. Paul 55; do Preferred, 70; Chicago and Rock Island, 96; Chicago and Northwestern, 30½; do Preferred, 61½; Cleveland and Pittsburgh, 83¾; Illinois Central, 121; Michigan Southern, 79¼; Michigan Central, 108¼; Reading 100¾; Erie, 62¾; New York Central, 96½; Western Union Telegraph, 61½; 5-20 Coupons, 1862, 102⅝; 7-30's, 1st series, 102¾; do 3d series, 102⅝; Ohio and Mississippi Certificates, 28¾; Missouri 6's, 79.

FOUR O'CLOCK BOARD.—Ohio Certificates, 28⅝; Canton, 60¾; Boston Water Power, 49¾; Western Union Telegraph, 61¾; New York Central, 98½; Hudson, 111; Reading, 100¾; Erie, 63¾; Michigan Southern, 79¾; Pittsburgh, 83¾.

Gold closed at 142¾@143.

—The *Post's* money article says:

Several sensation rumors of Bank failures here and in Washington were afloat this morning. They had no foundation.

The Loan market is easy, but inactive, at 6 per cent. Commercial paper scarce, at 6@7½. Government Stocks firm, but railroad and miscellaneous securities are drooping. The latest quotations are: New York Central 97⅝; Erie, 62½.

Dry Goods Market.

NEW YORK, June 3.—There is little change in the market to-day. Some heavy cotton goods are a shade lower. The general trade is good for this season. Brown Sheetings—Pacific Extra, 23; do. H, 22½; Lancaster, 20; Atlantic A, 24; do. H, 24; Augusta, 20; Cabot R, 20; do. A, 21; Coxassett, 24; Indian Head, 23; Medford, 21½; Nashua Extra, 20; Naumkeag A, 21; New Market A, 21; Oregon D, 21. Sheeting and Shirtings—Bleached Androscoggin, 33; Anthony Manufacturing Company, 25; Bartlett's, XX, 36; do. B B, 28; Dwight, 35; Harris No. 1, 28; Hill Semiden, 32; Home, 32½; do., 27½; Hope, 28; James, 28½; Lonsdale, 32; Tuscarora, 32½; Waltham, 35. Cottonades—Eagle, 52½; Farmers & Mechanics, 60; New York Mills, D. & L., 65; Pemberton, D. & T., 55; Plow Loom and Anvil, 55. Prints—Cocheco, 21; Merrimack D, 21; do. 22; Spragues Frocks, 21; do. Fancy, 20.

Bids for Subsistence Stores at Louisville.

The Louisville *Courier*, of the 5th, says:

The following bids for subsistence stores, to be delivered, free of drayage, on or before the 9th inst., were received by Brevet-major J. W. Barringer, C. S. U. S. A., on Saturday:

BIDS.

Hamilton & Bro., 500 barrels prime mess pork at $30,25. F. Leib, 500 barrels mess pork at $31,50. J. Peter & Co., 500 barrels mess pork at $31,50. Grubb, Hardin & Co., 100 barrels flour, plain extra, at $9,75. F. Leib, 100 barrels flour, plain extra, at $9,75. J. Peter & Co., 100 barrels flour, plain extra, at $10,25.

AWARDS.

Grubb, Hardin & Co., 100 bbls flour, plain extra, at $9,75. No bids of pork were accepted the prices being deemed too high.

Flour and Grain in Store in Chicago.

The following table, compiled from the official reports of the warehousemen to the Secretary of the Board of Trade, shows the amount of Flour and Grain in store in Chicago on the 2nd inst., compared with the amount in store on the same day last year:

	1866.	1865.
Flour		
Wheat	818,730	1,711,958
Corn	2,054,010	890,073
Oats	1,030,147	971,116
Rye	223,966	27,868
Barley	86,722	12,920

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 7, 1866.

The produce markets continue quiet but steady, with a fair demand for Flour, Grain, Provisions, Groceries, and other articles of less prominence, but prices have undergone no quotable change.

GRAIN—Wheat is firm and in good demand, with sales of 2 cars Club at $2,20. Corn is steady, with sales of 3000 bush Shelled, part to arrive, at 78; and 1 car, in ears, at 82. Oats firm, with sales of 2 cars prime, in sacks, at 57; and sales from store at 60 to 65. Rye is selling at $1, and Buckwheat at $2,25@2,50.

FLOUR—Is firm, with a continued fair local demand but prices remain unchanged at $10,50 to $11 for Spring Wheat; $11,25@11,50 for half Spring and half Winter, and $12,25@12,75 for all Winter Wheat. Rye Flour is firm at $6,50@6,75 per bbl.

PROVISIONS—Bacon is firm and steady, and looking up. We continue to quote from store at 14½@14¾ for Shoulders; 17@17½ for Ribbed Sides; 21½@22 for Plain Sugar Cured Hams, and 23@23½ for Canvassed do. Lard is quiet, but held pretty firmly 22½@23 for prime kettle rendered. Mess Pork is quoted at $32,50@33.

POTATOES—Very dull and drooping. Regular sales from store at $1,20 to $1,25 per bushel, and $3,25@3,50 per bbl, according to quality.

BUTTER—Continues very dull, and notwithstanding the receipts are light, the supply appears to be considerably in excess of the demand. We continue to quote at 20 to 25 for fair to prime fresh Roll.

CHEESE—Is coming in pretty freely, and the market is a little dull, and we give 16 to 18 as the ruling quotations.

EGGS—In good supply and a little dull but unchanged at 22@23.

DRIED FRUIT—Peaches firm with sales of quarters at 19@20, and halves at 23@24. Apples are selling at 14@15 for common—prime bright of which there are none in this market, would sell readily at 18@19.

BEANS—There is considerable inquiry for prime white and they would sell readily at $2 per bush. Common may be quoted at $1,25 @1,50 per bushel.

SORGHUM—Is dull but unchanged; sales of common at 40 to 45, and prime at 55@60.

SALT—Is steady, and No. 1 is quoted firm at $2,40 by the car load.

SEEDS—Flaxseed is selling at $2,65 for small lots—a round lot would doubtless bring $2,70. No movement in Clover or Timothy Seed.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 7, 1866

CRUDE—There was next to nothing done in Crude to-day and the market continues dull and weak, though prices remain unchanged at 14, bbls returned, and 19 to 19½, bbls included,—but one sale reported, 100 bbls at 14. The demand for shipment seems to have ceased entirely, and refiners are evidently pretty well supplied, as they do not seem disposed to buy, though some of them are doubtless holding off in hopes of lower rates. Aside from that in tank, held on speculation, there is but comparatively little oil here at present, and as navigation is again restricted, the arrivals have already begun to fall off, and, generally speaking, holders do not seem disposed to make any further concessions in order to effect sales.

REFINED—There is still some inquiry for bonded oil, both for present and future delivery, but there is very little oil offering, and besides, refiners generally, are not satisfied with the figures now being offered. We can report sales of 500 bbls at 34½, free on board cars here; and 500 at 41½ delivered in Philadelphia. The foreign advices continue very unfavorable, and this, as a matter of course, has a tendency, more than anything else, to depress the market here as well as in Philadelphia and New York, and the worst feature of all is the fact that there are no indications at present of any immediate improvement. In free oil, there is next to nothing doing, as the demand is still restricted entirely to supplying the wants of the local trade.

NAPTHA AND RESIDUUM —There was considerable inquiry for Residuum, and as a consequence, the market is much firmer; we can report a sale of [illegible] bbls at $3,25 per bbl, and a considerable amount could have been sold at this figure. There seems to be no demand whatever for Naptha from any quarter.

ARRIVALS—So far as we could learn there was not a single arrival of oil to-day. Yesterday, however, there were some arrivals which we failed to get, as follows: Fisher & Bro., 1000; W. A. McClurg, 61; Brewer, Burke & Co., 275; Thos. Chess, 751—total, 2087.

CENTRAL LIVE-STOCK MRKAET.

OFFICE OF THE PITTSBURGH GAZETTE, THURSDAY, June 7, 1866.

CATTLE—The receipts and sales of cattle were unusually large this week, larger than during any preceding week this season, but when the quality of the cattle are taken into consideration together with the favorable reports both from New York and Philadelphia, the market cannot be regarded as a good one for sellers, and, upon an average, the prices realized were not up to those of last week. It is true, some extra and fancy cattle sold at extreme prices, but we have no doubt the same cattle, if they had been here, would have sold at still better prices last week; and common and inferior grades must be quoted fully one cent per pound lower, and even at the decline, buyers were indifferent about buying. As will be seen by reference to the sales, one drove of extra Ohio steers brought 9¼ cents, gross, but it should be borne in mind that this was an extra bunch of cattle, averaging *sixteen hundred pounds*, and cannot therefore be taken as a fair criterion of the market. Good fat steers sold at from 8 to 8½; medium grades, 7¼ to 7½, and inferior at 6 to 6½.

SHEEP—The market for Sheep was firm and buoyant during the early part of the week, and with light arrivals and a good many buyers, an advance of from ¼ to ½ cents per pound was paid over last weeks quotations. Yesterday and to-day, however, under the influence of increased arrivals and unfavorable advices from Baltimore and Philadelphia, the market partially let down, and buyers insisted on concessions. For further particulars, we refer the reader to the annexed report of sales.

HOGS—The transactions in Hogs were remarkably light this week, and with only moderate arrivals and a pretty full attendance of buyers, the market ruled steady, and in some cases a slight advance was paid. One drove of extra Ohio Hogs, averaging 287 pounds, brought 10½, gross, for Baltimore market, but this was an extra bunch of Hogs, and the figure paid does not represent fairly the general tone of the market. Fair to good averages may be fairly quoted at 9¼ to 9¾, and at these figures there is a very fair demand.

THE NEW

Spring and Summer Medicine.

FLUID EXTRACT

SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co.,

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents, in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Pale, scrofulous women and children improve rapidly under its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. In White-Swellings, Hip-Joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it, as an

Alterative, or Blood Purifier,

has ever before been placed within the reach of invalids. Indeed, it is an entirely NEW and SCIENTIFIC combination, in no respect resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular, which can be had at the store of any and all first-class Druggists.

RIVER NEWS.

The river receded several inches during Wednesday night and yesterday, and was still receding last evening, with three feet ten inches in the channel by the marks. The weather continues cloudy, warm and unsettled. Business continues tolerably active at the wharf, although there is plenty of room for improvement.

There has not been a single arrival since our last report, and the Tahlequah, from Cincinnati, is the next boat due. The Importer and Columbia left for St. Louis yesterday, with very fair trips, having all the freight they could take on the water. The former boat had quite a number of passengers. The Brownsville packets, Fayette and Chieftan arrived and departed, and the Leni Leoti is due here from Parkersburg this morning.

The Camelia, Capt. Lytle, will leave for Cincinnati and Louisville to-day, and passengers and shippers should bear this fact in mind. Mr. McKnight, the clerk, will see that all having business with the boat receive every proper attention.

The Rose Hambleton, in command of Capt. Charley Beers, left for St. Louis last evening with all the freight she could take. The Columbia stuck on Glass House yesterday afternoon, but succeeded in getting over with but little difficulty.

The Nora, in command of Capt. H. H. Devinney, is announced for Cincinnati and Louisville, leaving on Saturday next. The Nora is next in turn after the Camelia, and being a low water boat, will go through with dispatch.

Wednesday's Cincinnati *Commercial* says: The Robert Moore and Petrolia, from Pittsburgh, were among the arrivals. The Tahlequah, for Pittsburgh, and J. G. Blackford, for St. Louis include the departures all with fair trips. The Robt. Moore brought 300 tons, and reshipped 40 on the Abeona, for Nashville, 60 tons for Louisville, on the United States, 15 tons for New Orleans, and 79 tons for St. Louis on the J. G. Blackford. The Argonaut No. 2 came in from Pittsburgh with over 400 tons. She will fill out with furniture and passengers and depart for St. Louis to-day.

The New Albany *Ledger* says that Captain Stut Neal, of the great steamer Indiana, was in that city on Saturday, with a view to negotiate for the building of a mammoth lightning steamer for the Louisville, New Albany and New Orleans trade. She will be one of the largest and most complete boats ever built in the west, and her dimensions are to be as follows: Length, 335 feet; beam 50 feet; depth of hold, 9 feet. She will be low pressure, with cylinders 60 inches in diameter, 10 feet stroke. It is more than probable that this leviathan steamer will be built and ready for business by the first of December next.

INSURE YOUR LIFE IN THE CHARTER OAK LIFE INSURANCE COMPANY OF HARTFORD, CONN.

THE ONLY LIFE INSURANCE COMPANY IN AMERICA that now makes and pays an Annual CASH DIVIDEND on the first and each subsequent payment of premium. Its CASH CAPITAL, an accumulation of $2,000,000, is securely invested in public stocks and mortgages of REAL ESTATE. It is now in its 16th year of business, and has paid to the WIDOWS AND ORPHANS of its members the sum of ONE MILLION DOLLARS. To this date not a single case of litigation has occurred, an evidence that liberality and fair dealing is a specialty with this Company.

The policies of this Company are not forfeited by reason of non-payment of premium after the second year. No payments required after ten years, but policies continue good through life.

CHOLERA DISARMED!!!

The Chief Cause of Pestilence Destroyed!

DR. E. COURTARET'S DISINFECTING FLUIDS, secured by Letters Patent in the United States and France. Prepared solely by the New York Disinfecting Company, at their Laboratory, Nos. 268, 300 and 302 Henry Street, N. Y. Office, 32 Cedar Street.

This Company organized on a permanent basis, with Dr. Courtaret, the celebrated French Chemist, in charge of its Laboratory, is prepared to furnish its DISINFECTING FLUIDS for sick rooms, nurseries, urinals, water closets, privies, cesspools, sewers, gutters, ships, railroads, hospitals, prisons, and public institutions of all kinds, slaughter-houses, offal and fat-boiling establishments; all kinds of manures (*immensely* increasing the value of the latter to every farmer), and wherever poisonous and offensive gases exist. These agents are deodorizers, antiseptics, antiputrescents, and disinfectants in the scientific meaning of the words. They remove noxious gasses and odors by chemical principles—leaving in their places *healthful air*; they are DESTROYERS, and *not merely absorbents* of poisonous gases—not injurious to utensils in which they are used. The attention of medical and scientific men is directed to these disinfectants. Attached are testimonials in favor of this great discovery, which, with hundreds of others can be seen at the Company's office.

DELAVAN HOUSE, ALBANY, March 30, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: It is all it is represented to be. We have made many trials of disinfectants, but now consider that we have found an article which surpasses all others as a remedy against all bad odors.
T. ROESSEL & CO.

NEW YORK, April 9, 1866.
To the President of the New York Disinfecting Co.:
Dear Sir: We pronounce it, without exception, to be the best we have ever known. Its effect upon every matter is complete and instantaneous.
C. A. STETSON, Astor House.
